Subject: FW: Plumbers Pipefitters Program Endorsement Request

Frank,

The construction report we delivered in January (attached) should serve as the justification for the PE report. This email can be attached to application materials.

Exhibit 44 on p. 48 shows an annual gap of more than 400 workers projected over the next 5 years in the 6 county Sacramento region.

Construction workforce shortages continue to plague our regional and state economy causing project delays and cost overruns.

The data includes available supply numbers from apprenticeship, public, and private training providers.

Fran,

Please note the request in our project management document and the public-facing Google sheet.

Thank you.

Aaron
