Advisory Committee,

I need your input for this:

In Summer of 2018 the State Chancellors Office lowered the unit requirement for Career Technical Education (CTE) to qualify for a Certificate of Achievement from 12 to 8. With this being said, we have decided to change our EMT certificate from a Career Preparation Certificate to a Certificate of Achievement due to the units for the course being 9.5. Currently the certificate does not get listed on the student transcript because of the type it is. This new certificate change will allow the certificate to be listed on the student transcript from the college. In order for us to have this new certificate approved we have to go through a quite lengthy process.

Part of this process is that we will need you - our Advisory Committee - to first approve the change of the EMT Certificate from a Career Preparation Certificate to a Certificate of Achievement. This will allow us to first achieve local approval from our Regional Consortium before being sent to our State Chancellor office for approval.

PRO –

1. Students successfully completing EMS 60 (Emergency Medical Technician) would have this new Certificate of Achievement listed on their transcripts, rather than simply being issued a Certificate of Career Prep (not listed in transcripts currently). This directly acknowledges the student's academic achievement and will follow them throughout their academic career. It may also show a 'stackable' pathway to career achievement as our Paramedic Program is already a Certificate of Achievement –

showing on transcripts as well.

2. This is also reportable as student success for the EMS program with every certificate awarded. This will accurately reflect EMS Program success and add to the numbers already reported from the Paramedic program. To give you some potential numbers of certificates that may be issued once approved – for the Winter of 2017 through Summer 2018, EMS successfully completed approximately 346 EMT students (not including Fall 2018 – approximately another 100 students - still in process). Add the Paramedic completers which are currently being reported at approximately 60-76 annually, you can see that this will significantly improve the number of Certificates of Achievement issued by the college under the EMS program.

3. Increasing the number of certificates will also affect funding opportunities for the EMS program – specifically grant opportunities like PERKINS, Strong Workforce, etc).

CON – No disadvantage to the student or program whatsoever.

We are sending this request to you by email so we can hope to get this certificate up to the State to be approved in November allowing us to have it listed in our college catalog (State Requirement) to be able to offered for Fall 2019. This has to be done and ready by December 13, 2018.

Please reply with your input, comments, or simply a yes / no on support.

We thank you for your support. See you all at the Advisory Committee meeting in November.

//Dave
