Hackathon by the sea.

F35 / J31

Provided overview of CNSE programs and A.S. Degree.

Received positive feedback to continue building Cloud courses and include a Cloud Certificate.

Possible Cloud courses include Cloud Foundations, Cloud Architecture, Cloud Operations and Cloud Security. Possible additions may include Cloud Devops – not sure if that's a better fit in Computer Science department.

Reviewed Microsoft Certificate. Most IT companies want students familiar with Server however Microsoft has continuously changed curriculum. Instead of offering multiple Server offerings, the suggestion was agreed upon to include one Server courses, one Desktop courses and a variety of foundational supporting courses.

The IT Coalition came up with some ideas on updating Windows Engineering and Administration Certificates for Microsoft.
