Monica Pactol, Ph.D.
Vice President of Instruction
Folsom Lake College
10 College Parkway
Folsom, CA 95630

Subject: Letter of Support for Reestablishing the Fire Technology Program at Folsom Lake College

Dear Vice President Pactol,

On behalf of the El Dorado Hills Fire Department, we strongly support Folsom Lake College and its efforts to reestablish the Folsom Lake College Fire Technology Program. As a local fire department, we recognize the importance of well-trained and educated firefighters to ensure the safety and well-being of our community.

The American Fire Service attributes improvements in training for firefighters to a decline in fire-related fatalities over the last decade. The Folsom Lake College Fire Technology Program, partnered with the El Dorado Hills Fire Training Center and the West Slope Regional Public Safety Training Consortium, will allow for the delivery of real-life, comprehensive training, strengthening the capabilities of our Departments and our Regional Partners.

We believe that Folsom Lake College's Fire Technology Program will significantly contribute to the development and advancement of the firefighting profession. The El Dorado Hills Fire Department is committed to assisting Folsom Lake College in establishing a comprehensive curriculum, combining theoretical knowledge and practical skills, enabling aspiring firefighters to be better prepared for the challenges they will face in their careers.

Reestablishing the Fire Technology Program at Folsom Lake College will benefit the local fire departments by providing a steady stream of qualified candidates and the entire Fire Service. These graduates will be equipped with the necessary knowledge and skills to effectively respond to emergencies and natural disasters.

In addition to our support, the El Dorado Hills Fire Department is committed to collaborating with Folsom Lake College by offering our facilities, resources, and expertise for the fire program's practical training exercises. We are committed to ensuring the success of this program and the development of the next generation of skilled firefighters.

We urge you to give your full support to the reestablishment of the Fire Technology Program at Folsom Lake College. Please feel free to contact us if you require any additional information or assistance in this regard.

Thank you for your attention to this important matter. We look forward to the positive impact that the Fire Technology Program at Folsom Lake College will have on our community and profession.

Sincerely,

Subject: Letter of Support for Reestablishing the Fire Technology Program at Folsom Lake College

Dear Vice President Pactol,

I strongly support Folsom Lake College and its efforts to reestablish the Folsom Lake College Fire Technology Program. As a past member, for over 30 years, of the El Dorado Hills Fire Board, I recognize the importance of well-trained and educated firefighters to ensure the safety and well-being of our community.

The American Fire Service attributes improvements in training for firefighters to a decline in fire-related fatalities over the last decade. The Folsom Lake College Fire Technology Program, partnered with the El Dorado Hills Fire Training Center and the West Slope Regional Public Safety Training Consortium, will allow for the delivery of real-life, comprehensive training, strengthening the capabilities of our Departments and our Regional Partners.

I believe that Folsom Lake College's Fire Technology Program will significantly contribute to the development and advancement of the firefighting profession. The El Dorado Hills Fire Department is committed to assisting Folsom Lake College in establishing a comprehensive curriculum, combining theoretical knowledge and practical skills, enabling aspiring firefighters to be better prepared for the challenges they will face in their careers.

Reestablishing the Fire Technology Program at Folsom Lake College will benefit the local fire departments by providing a steady stream of qualified candidates and the entire Fire Service. These graduates will be equipped with the necessary knowledge and skills to effectively respond to emergencies and natural disasters.

The El Dorado Hills Fire Department is committed to collaborating with Folsom Lake College by offering their facilities, resources, and expertise for the fire program's practical training exercises. They are committed to ensuring the success of this program and the development of the next generation of skilled firefighters.

I urge you to give your full support to the reestablishment of the Fire Technology Program at Folsom Lake College. Thank you for your attention to this important matter. I look forward to the positive impact that the Fire Technology Program at Folsom Lake College will have on our community and profession.

Subject: Support for Fire Technology Program

Dear Vice President Pactol.

On behalf of the Williams Fire Protection Authority (Authority) we are writing to express our strong support for the Folsom Lake College (FLC) in their efforts to reestablish the FLC Fire Technology Program. As a local fire department, we recognize the importance of well trained and educated firefighters to keep our communities safe.

Over the last several years departments have struggled to find qualified and educated candidates to fill fire and EMS positions. Part of the problem is the lack of fire Technology programs in our area. The Authority partnered with the Colusa County Office of Education to start a wildland firefighting program seven years ago, and the program has been very success full.

I also serve and various State Fire Boards and hear the same issue up and down the State. Lack of qualified training programs to meet the demands of the local fire departments. Even the volunteer fire service is struggling to find quality candidates for volunteer positions. These trained volunteers usually will expand their training and education at facilities like yours to become paid fire fighters.

We urge you to give your full support to reestablish the FLC program to better serve our local communities and the State of California.

Sincerely,

Jeffery A. Gilbert
