

Occupations for Information Technology Labor Market Analysis: Imperial County

December 2018

Summary

According to available labor market information, there is a demand for occupations for which individuals could be trained by an *Information Technology* program. For the purpose of this report, these occupations are referred to as “*Information Technology Occupations*.” *Information Technology Occupations* in Imperial County have a labor market demand of 19 annual job openings. Imperial Valley College (IVC) supplies 13 awards, suggesting that there is a supply gap for this occupation. These occupations’ median earnings are higher than the Self-Sufficiency Standard, suggesting that students who successfully complete a program and obtain employment in a related field may earn a living wage.

The following list summarizes findings from the labor market analysis for *Information Technology Occupations*:

- Between 2017 and 2022, *Information Technology Occupations* are projected to increase by 11 jobs or five percent.
- Employers in Imperial County will need to hire 19 workers annually to fill new jobs and backfill jobs due to attrition such as retirement or turnover.
- Between 2010 and 2017, there was an average of 37 online job postings per year for *Information Technology Occupations* in Imperial County.
- On average, the median hourly earnings for *Information Technology Occupations* is \$30.79; this is more than the Self-Sufficiency Standard for two adults and two children (school-age) in Imperial County, which is \$13.20 per hour.
- There are 13 TOP codes associated with these occupations, including Electronic Game Design (061420), Information Technology (070100), Computer Information Systems (070200), Software Applications (070210), Computer Systems Analysis (070730), Computer Infrastructure and Support (070800), Computer Networking (070810), etc. There are 26 related CIP codes.
- According to TOP and CIP data, Imperial Valley College is the only educational institution that supplies the region with awards.

- Comparing labor demand (annual openings) with labor supply suggests that there is a supply gap for these occupations in Imperial County, with 19 annual openings and 13 awards. Comparatively, there are 17,050 annual openings in California and 5,378 awards.
- Between January 1, 2015 and December 31, 2017, the top five employers in Imperial County for these occupations were Best Buy, Imperial Irrigation District, El Centro Regional Medical Center, Imperial County, and Brawley Elementary School District.
- Based on online job postings between January 1, 2015 and December 31, 2017, the top listed educational requirement for *Information Technology Occupations* is a high school diploma or vocational training.

Introduction

This report analyzes four occupations for which an individual could be trained by an *Information Technology* program. The occupations are:

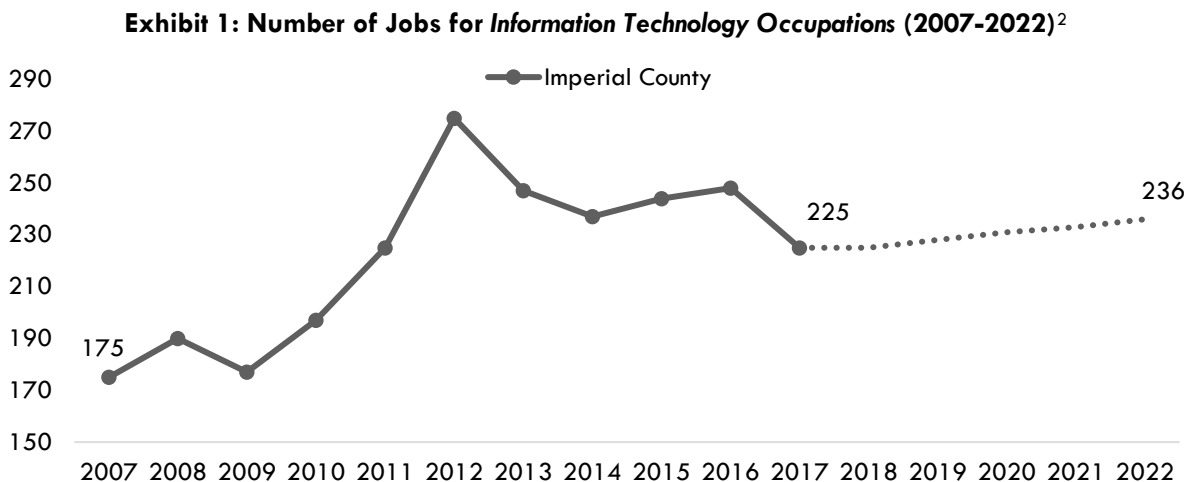

- **Computer Network Support Specialist** (SOC¹ 15-1152): Apply electrical and electronic theory and related knowledge, usually under the direction of engineering staff, to design, build, repair, calibrate, and modify electrical components, circuitry, controls, and machinery for subsequent evaluation and use by engineering staff in making engineering design decisions.
- **Network and Computer Systems Administrators** (SOC 15-1142): Repair, adjust, or install audio or television receivers, stereo systems, camcorders, video systems, or other electronic home entertainment equipment.
- **Computer User Support Specialists** (SOC 15-1151): Install, program, maintain, or repair security or fire alarm wiring and equipment. Ensure that work is in accordance with relevant codes.
- **Computer Occupations, All Other** (SOC 15-1199): Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of an establishment in repair. Duties may involve pipe fitting; boiler making; insulating; welding; machining; carpentry; repairing electrical or mechanical equipment; installing, aligning, and balancing new equipment; and repairing buildings, floors, or stairs, including more specific titles such as:
 - **Software Quality Assurance Engineers and Testers** (15-1199.01): Develop and execute software test plans in order to identify software problems and their causes.

¹ The Standard Occupational Classification (SOC) system is used by federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating or disseminating data. bls.gov/soc.

- **Web Administrators** (15-1199.03): Manage web environment design, deployment, development and maintenance activities. Perform testing and quality assurance of web sites and web applications.
- **Database Architects** (15-1199.06): Design strategies for enterprise database systems and set standards for operations, programming, and security. Design and construct large relational databases. Integrate new systems with existing warehouse structure and refine system performance and functionality.
- **Video Game Designers** (15-1199.11): Design core features of video games. Specify innovative game and role-play mechanics, story lines, and character biographies. Create and maintain design documentation. Guide and collaborate with production staff to produce games as designed.

Projected Occupational Demand

Between 2017 and 2022, *Information Technology Occupations* are projected to increase by 11 jobs or five percent (Exhibit 1). Employers in Imperial County will need to hire 19 workers annually to fill new jobs and backfill jobs due to attrition such as retirement or turnover.

Online Job Postings

Between 2010 and 2017, there was an average of 37 online job postings per year for *Information Technology Occupations* in Imperial County (Exhibit 2).

Exhibit 2: Number of Online Job Postings for *Information Technology Occupations* in Imperial County (2010-2017)³

Earnings

The median hourly earnings of *Information Technology Occupations* range from \$21.78 to \$35.36 (Exhibit 3b). On average, the median hourly earnings for *Information Technology Occupations* is \$30.79; this is more than the Self-Sufficiency Standard for two adults and two children (school-age) in Imperial County, which is \$13.20 per hour (Exhibit 3b).⁴

Exhibit 3a: Hourly Earnings for *Information Technology Occupations* in Imperial County

Occupational Title	Entry-Level Hourly Earnings (10 th Percentile)	Median Hourly Earnings	Experienced Hourly Earnings (90 th Percentile)
Computer Network Support Specialists	\$19.87	\$30.75	\$47.54
Computer Occupations, All Other	\$18.56	\$35.28	\$61.08
Network and Computer Systems Administrators	\$17.42	\$35.36	\$67.40
Computer User Support Specialists	\$13.53	\$21.78	\$46.31

According to TOP and CIP data, Imperial Valley College is the only educational institution that supplies the region with awards (Exhibit 5).

Exhibit 5: Number of Awards (Certificates and Degrees) Conferred by Postsecondary Institutions (Program Year 2013-14 through PY2016-17 Average)

TOP6	TOP6 Title	3-Yr Annual Average CC Awards (PY14-15 to PY16-17)	Other Educational Institutions 3-Yr Annual Average Awards (PY13-14 to PY15-16)	3-Yr Total Average Supply (PY13-14 to PY16-17)
070200	Computer Information Systems	11	0	11
	• Imperial	11	0	
070800	Computer Infrastructure and Support	2	0	2
	• Imperial	2	0	
			Total	13

Demand vs. Supply

Comparing labor demand (annual openings) with labor supply⁷ suggests that there is a **supply gap** for these occupations in Imperial County, with **19** annual openings and **13** awards. Comparatively, there are **17,050** annual openings in California and **5,378** awards⁸ (Exhibit 6).

⁷ Labor supply can be found from two different sources: EMSI or the California Community Colleges Chancellor's Office MIS Data Mart. EMSI uses CIP codes while MIS uses TOP codes. Different coding systems result in differences in the supply numbers.

⁸ Centers of Excellence Student Outcomes supply table. (coecc.net/Supply-and-Demand.aspx).

Exhibit 6: Labor Demand (Annual Openings) Compared to Labor Supply (Average Annual Awards)

Community Colleges and Other Postsecondary Educational Institutions	Demand (Annual Openings)	Supply (Total Annual Average Supply)	Supply Gap or Oversupply
Imperial	19	13	6
California	17,050	5,378	11,672

Please note: This is a basic analysis of supply and demand of labor. This data should be used to discuss the potential gaps or oversupply of workers; however, it should not be the only basis for determining whether or not a program should be developed. Additionally, the data does not include workers who are currently in the labor force who could fill these positions or workers who are not captured by publicly available data.

Student Outcomes

Based on the information available in the CTE LaunchBoard, students who took courses in the related TOP codes exhibited the following outcomes (Exhibit 7).

Exhibit 7: Strong Workforce Program Metrics for TOP 070100: Information Technology, General Imperial Valley College vs. California (PY2015-16)

Metric	Imperial Valley	California
Number of course enrollments ⁹	603	73,658
Completed 12+ CTE units in one year ¹⁰	89	9,158
Completed 48+ CTE contact hours in one year ¹¹	0	766
Number of students who got a degree or certificate ¹²	N/A	142
Number of students who transferred ¹³	31	6,653
Employed in the second fiscal quarter after exit ¹⁴	N/A	66%
Employed in the fourth fiscal quarter after exit ¹⁵	N/A	65%

⁹ The number of enrollments in courses assigned to the TOP code in the selected year.

¹⁰ The number of students who completed 12 or more credit CTE units.

¹¹ The number of students who completed 48 or more noncredit CTE instructional contact hours.

¹² The number of unduplicated students who earned a locally-issued certificate, Chancellor's Office approved certificate, associate degree, and/or California Community Colleges bachelor's degree in the selected TOP code.

¹³ Students who took non-introductory courses or completed a California Community Colleges Chancellor's Office award in the selected TOP code in selected year who subsequently enrolled for the first time in a four-year institution the following year.

¹⁴ Among all exiters with a valid SSN, the percentage who were employed two quarters after exiting California Community Colleges.

¹⁵ Among exiting students with a valid SSN, the percentage who were employed four quarters after exiting California Community Colleges.

Metric	Imperial Valley	California
Job closely related to field of study ¹⁶	N/A	N/A
Median earnings in the second fiscal quarter after exit ¹⁷	N/A	\$8,013
Median change in earnings ¹⁸	N/A	50%
Attained a living wage ¹⁹	N/A	53%

Top Employers and Work Locations

Between January 1, 2015 and December 31, 2017, the top five employers in Imperial County for these occupations were [Best Buy](#), [Imperial Irrigation District](#), [El Centro Regional Medical Center](#), [Imperial County and Brawley Elementary School District](#) (Exhibit 8).

Skills, Education, and Certifications

Information Technology Occupations have varying educational requirements; however, they range from some college, no degree to a bachelor's degree (Exhibit 9a).

¹⁶ Among students who responded to the CTEOS, the percentage reporting employment in the same or similar field as their program of study.

¹⁷ Among exiting students, the median second-quarter earnings one year after the year in which they exited California Community Colleges.

¹⁸ Among exiting students with a valid SSN, the percentage change in earnings one year before and one year after exiting California Community Colleges.

¹⁹ Among completers and skills builders who exited, the proportion of students who attained a living wage.
