The Los Angeles Center of Excellence for Labor Market Research (LA COE) prepared this report to provide regional labor market supply and demand data related to five middle-skill occupations:

- Plumbers, pipefitters, and steamfitters (47-2152);
- Sheet metal workers (47-2211);
- Structural iron and steel workers (47-2221);
- Welders, cutters, solderers, and brazers (51-4121); and
- Welding, soldering, and brazing machine setters, operators, and tenders (51-4122)

Middle-skill occupations typically require some postsecondary education, but less than a bachelor’s degree.¹ This report is intended to help determine whether there is demand in the local labor market that is not being met by the supply from community college programs that align with the relevant occupations.

Based on the available data, there appears to be a supply gap in the region for the occupations studied in this report. While the majority of job openings have entry-level wages below the self-sufficiency standard wage in both Los Angeles and Orange counties, approximately one-third of incumbent workers in the field have completed some college or an associate degree. **Due to some of the criteria being met, the COE endorses this program.** Detailed reasons include:

¹ The COE classifies middle-skill jobs as the following:

- All occupations that require an educational requirement of some college, associate degree or apprenticeship;
- All occupations that require a bachelor’s degree, but also have more than one-third of their existing labor force with an educational attainment of some college or associate degree; or
- All occupations that require a high school diploma or equivalent or no formal education, but also require short- to long-term on-the-job training where multiple community colleges have existing programs.

Demand:

- **Supply Gap Criteria** – Over the next five years, there is projected to be **nearly 3,700 jobs available annually** in the region due to new job growth and replacements, **which is more than the 396 awards conferred annually** by educational institutions in the region.
- **Living Wage Criteria** – In Los Angeles County, the majority (94%) of annual job openings for the occupations of interest have entry-level wages **below** the self-sufficiency standard wage (\$18.10/hour).²
- **Educational Criteria** – The Bureau of Labor Statistics (BLS) lists a **high school diploma or equivalent** as the **typical entry-level education** for each of the five occupations in this report.
 - However, national-level educational attainment data indicates that **between 32% and 34% of workers in the field have completed some college or an associate degree.**

Supply:

- Between 2017 and 2020, **12 community colleges** in the LA/OC region issued awards in programs that have historically trained for the occupations of interest, conferring an average of **306 awards**.
- Between 2016 and 2019, non-community college institutions in the LA/OC region conferred an average of **90 awards in relevant programs**.

² Self-Sufficiency Standard wage data was pulled from The Self-Sufficiency Standard Tool for California. For more information, visit: <http://selfsufficiencystandard.org/california>.

Occupational Demand

Exhibit 1 shows the five-year occupational demand projections for the five occupations of interest. In the Los Angeles/Orange County region, the number of jobs related to these occupations is projected to increase by 1% through 2025. There will be nearly 3,700 job openings per year through 2025 due to job growth and replacements.

This report includes employment projection data by Emsi which uses EDD information. Emsi's projections are modeled on recorded (historical) employment figures and incorporate several underlying assumptions, including the assumption that the economy, during the projection period, will be at approximately full employment. To the extent that a recession or labor shock, such as the economic effects of COVID-19, can cause long-term structural change, it may impact the projections. At this time, it is not possible to quantify the full impact of COVID-19 on projections of industry and occupational employment. Therefore, the projections included in this report do not take the full impacts of COVID-19 into account.

Exhibit 1: Occupational demand in Los Angeles and Orange Counties³

Geography	2020 Jobs	2025 Jobs	2020-2025 Change	2020-2025 % Change	Annual Openings
Los Angeles	22,705	22,783	78	0%	2,397
Orange	12,071	12,303	232	2%	1,293
Total	34,775	35,086	311	1%	3,689

Wages

The labor market endorsement in this report considers the hourly wages for the five occupations of interest in Los Angeles County, as they relate to the county's self-sufficiency standard wage. Orange County wages are included below in order to provide a complete analysis of the LA/OC region. Detailed wage information, by county, is included in Appendix A.

Los Angeles County – The majority (94%) of annual openings for the occupations of interest have entry-level wages **below** the self-sufficiency standard wage for one adult (\$18.10 in Los Angeles County). Typical entry-level hourly wages are in a range between \$15.26 and \$20.45. Experienced workers can expect to earn wages between \$22.56 and \$42.56, which are above the self-sufficiency standard wage estimate.

Orange County – The majority (93%) of annual openings for the occupations of interest have entry-level wages **below** the self-sufficiency standard wage for one adult (\$20.63 in Orange County). Typical entry-level hourly wages are in a range between \$16.02 and \$21.28. Experienced workers can expect to earn wages between \$23.58 and \$43.90, which are above the self-sufficiency standard wage estimate.

³ Five-year change represents new job additions to the workforce. Annual openings include new jobs and replacement jobs that result from retirements and separations.

Job Postings

Over the past 12 months, there have been 3,379 online job postings related to the five occupations of interest. The majority of job postings (44%) were for *plumbers, pipefitters and steamfitters*, followed by *welders, cutters, solderers, and brazers* (34%). The highest number of job postings were for plumbers, welders, plumbing technicians, TIG welders, and sheet metal workers. The top skills were plumbing, welding, repair, MIG/TIG welding, and hand and power tools. The top employers, by number of job postings, in the region were SpaceX, Rooter Hero Plumbing, Pearce Services, and Prodigy Plumbing.

It is important to note that the job postings data included in this section reflects online job postings listed in the past 12 months and does not yet demonstrate the full impact of COVID-19. While employers have generally posted fewer online job postings since the beginning of the pandemic, the long-term effects are currently unknown.

Exhibit 2: Job postings by occupation (last 12 months)

Educational Attainment

The Bureau of Labor Statistics (BLS) lists a high school diploma or equivalent as the typical entry-level education for each of the five occupations in this report. However, national-level educational attainment data indicates that between 32% and 34% of workers in the field have completed some college or an associate degree.

Educational Supply

Community College Supply – Exhibit 3 shows the annual and three-year average number of awards conferred by community colleges in programs that have historically trained for the occupations of interest. The colleges with the most completions in the region are Cerritos, LA Trade-Tech, and Santa Ana.

Exhibit 3: Regional community college awards (certificates and degrees), 2017-2020

TOP	Program	College	2017-18 Awards	2018-19 Awards	2019-20 Awards	3-Year Average
0952.30	Plumbing, Pipefitting and Steamfitting	LA Trade-Tech	35	10	31	25
		LA Subtotal	35	10	31	25
		Orange Coast	-	-	1	0

Supply Subtotal/Average			219	324	280	274
Supply Total/Average			255	349	313	306

Non-Community College Supply – For a comprehensive regional supply analysis, it is important to consider the supply from other institutions in the region that may provide training programs for the occupations of interest. Exhibit 4 shows the annual and three-year average number of awards conferred in relevant programs. Due to different data collection periods, the most recent three-year period of available data is from 2016 to 2019. Between 2016 and 2019, non-community college institutions in the region conferred an average of 90 awards.

Exhibit 4: Regional non-community college awards, 2016-2019

CIP	Program	Institution	2016-17 Awards	2017-18 Awards	2018-19 Awards	3-Year Average
48.0508	Welding Technology/Welder	Hacienda La Puente Adult Education	31	21	5	19
		Tri-Community Adult Education	-	103	111	71
Supply Total/Average			31	124	116	90

Appendix A: Occupational demand and wage data by county

Exhibit 5. Los Angeles County

Occupation (SOC)	2020 Jobs	2025 Jobs	5-Yr Change	5-Yr % Change	Annual Openings	Entry-Level Hourly Earnings (25 th Percentile)	Median Hourly Earnings	Experienced Hourly Earnings (75 th Percentile)
Plumbers, Pipefitters, and Steamfitters (47-2152)	11,053	11,415	362	3%	1,208	\$16.06	\$24.30	\$36.15
