

Emergency Medical Services (TOP 1250.00)

April 2022

Prepared by the South Central Coast Center of Excellence for
Labor Market Research

Program Recommendation

This report was compiled by the South Central Coast¹ Center of Excellence to provide regional labor market data for the program recommendation – Emergency Medical Services. This report can help determine whether there is demand in the local labor market that is not being met by the supply from programs of study (CCC and non-CCC) that align with this occupation group.

Key Findings

- In the South Central Coast region, the number of jobs related to Emergency Medical Services are expected to **increase** for Emergency Medical Technicians and Paramedics.
- Emergency Medical Services is anticipated to experience **a low risk of automation** for Emergency Medical Technicians.
- In 2020 there were 323 regional completions in programs related to the occupation identified as aligned with Emergency Medical Services and 100 openings, indicating an **oversupply**.
- Typical entry-level education is a **postsecondary nondegree award**.
- Completers of Emergency Medical Services programs from the 2018-2019 academic year in the South Central Coast region had a **median annual wage upon completion** of \$30,616.
- 77% of students are **employed within a year** after completing a program.
- 34% of students **attained a living wage** within a year of completion.
- Completers experienced an average of +20% **change in earnings after exiting**.
- 75% of students were **part time**, 11% **skill builders**, 36% **first-generation**, and 76% **economically disadvantaged**.

¹ The South Central Coast Region consists of San Luis Obispo County, Santa Barbara County, Ventura County, and the following cities from North Los Angeles County: Canyon Country, Castaic, Lake Hughes, Lancaster, Littlerock, Llano, Newhall, Palmdale, Pearblossom, Santa Clarita, Stevenson Ranch, and Valencia.

Occupation Codes and Descriptions

There is one occupation in the standard occupational classification (SOC) system that was identified as related to Emergency Medical Services for this analysis. The occupation title and description, as well as reported job titles are included in Exhibit 1.

Exhibit 1 – Occupation, description, and sample job titles

SOC Code	Title	Description	Sample of Reported Job Titles
29-2041	Emergency Medical Technicians and Paramedics	Assess injuries and illnesses and administer basic emergency medical care. May transport injured or sick persons to medical facilities.	--

Notes

Data included in this analysis represent the labor market demand for relevant positions most closely related to Emergency Medical Services. Traditional labor market information was used to show current and projected employment based on data trends, as well as annual average awards granted by regional community colleges. Real-time labor market information captures job post advertisements for occupations relevant to the field of study and can signal demand and show what employers are looking for in potential employees, but is not a perfect measure of the quantity of open positions. All representations have been produced from primary research and/or secondary review of publicly and/or privately available data and/or research reports. The most recent data available at the time of the analysis was examined; however, data sets are updated regularly and may not be consistent with previous reports. Efforts have been made to qualify and validate the accuracy of the data and findings; however, neither the Centers of Excellence for Labor Market Research (COE), COE host district, nor California Community Colleges Chancellor's Office are responsible for the applications or decisions made by individuals and/or organizations based on this study or its recommendations.
