<b>Education:</b>	Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>		
<b>Emerging Occupation(s)</b>						
Yes <input type="checkbox"/>			No <input checked="" type="checkbox"/>			

The Los Angeles/Orange County Center of Excellence for Labor Market Research (COE) prepared this report to provide Los Angeles/Orange County regional labor market supply and demand data related to two middle-skill occupations: *bookkeeping, accounting, and auditing clerks* (43-3031) and *payroll and timekeeping clerks* (43-3051). Middle-skill occupations typically require some postsecondary education, but less than a bachelor's degree.<sup>1</sup> This report is intended to help determine whether there is demand in the local labor market that is not being met by the supply from community college programs that align with the relevant occupations.

Based on the available data, there appears to be a supply gap for middle-skill accounting occupations in the LA/OC region. Furthermore, the majority of annual openings for the occupations in this report typically require some college/no degree, and entry-level wages are exceed the living wage in Los Angeles County. **Therefore, due to all the criteria being met, the COE endorses this proposed program.** Detailed reasons include:

#### Demand:

- **Supply Gap Criteria** - Over the next five years, there are projected to be **10,018 jobs available annually** in the LA/OC region due to replacements, **which is more than the 2,462 awards conferred annually** by educational institutions in the region.
- **Living Wage Criteria** - Within Los Angeles County, **all of the annual job openings** for these middle-skill accounting occupations have **entry-level wages above the county's living wage** (\$15.04/hour).<sup>2</sup>

<sup>1</sup> The COE classifies middle-skill jobs as the following:

- All occupations that require an educational requirement of some college, associate degree or apprenticeship;
- All occupations that require a bachelor's degree, but also have more than one-third of their existing labor force with an educational attainment of some college or associate degree; or
- All occupations that require a high school diploma or equivalent or no formal education, but also require short- to long-term on-the-job training where multiple community colleges have existing programs.

<sup>2</sup> Living wage data was pulled from California Family Needs Calculator on 3/30/2021. For more information, visit the California Family Needs Calculator website: <https://insightcced.org/2018-family-needs-calculator/>.

- **Education Criteria** - Within the LA/OC region, **91% of the annual job openings** for occupations related to accounting **typically require some college, but no degree.**
  - Furthermore, national-level educational attainment data indicates **between 48.5% and 48.9% of workers in the field have completed some college or an associate degree.**

**Supply:**

- All **28 community colleges** in the LA/OC region that issue awards related to accounting, conferring an average of **1,547 awards annually** between 2016 and 2019.
- Between 2014 and 2017, there was an average of **915 awards conferred annually** in related training programs by non-community college institutions throughout the LA/OC region.

**Occupational Demand**

Exhibit 1 displays the five-year occupational demand projections for middle-skill accounting occupations. In Los Angeles/Orange County, the number of new jobs related to these occupations is projected to decrease by 1% through 2024. However, there will be more than 10,000 job openings per year through 2024 due to job replacements in the LA/OC region.

*This report includes employment projection data by Emsi, which uses EDD information. Emsi’s projections are modeled on recorded (historical) employment figures and incorporate several underlying assumptions, including the assumption that the economy, during the projection period, will be at approximately full employment. To the extent that a recession or labor shock, such as the economic effects of COVID-19, can cause long-term structural change, it may impact the projections. At this time, it is not possible to quantify the impact of COVID-19 on projections of industry and occupational employment. Therefore, the projections included in this report do not take the impacts of COVID-19 into account.*

**Exhibit 1: Occupational demand in Los Angeles and Orange Counties<sup>3</sup>**

<b>Geography</b>	<b>2019 Jobs</b>	<b>2024 Jobs</b>	<b>2019-2024 Change</b>	<b>2019-2024 % Change</b>	<b>Annual Openings</b>
Los Angeles	62,033	61,217	(816)	(1%)	7,228
Orange	23,951	23,749	(202)	(1%)	2,790
<b>Total</b>	<b>85,984</b>	<b>84,966</b>	<b>(1,018)</b>	<b>(1%)</b>	<b>10,018</b>

**Wages**—The labor market endorsement in this report considers the entry-level hourly wages for these middle-skill accounting occupations in Los Angeles County, as they relate to the county’s living wage. Orange County wages are included below in order to provide a complete analysis of the LA/OC region. Detailed wage information, by county, is included in Appendix A.

---

<sup>3</sup> Five-year change represents new job additions to the workforce. Annual openings include new jobs and replacement jobs that result from retirements and separations.

**Los Angeles County**—All of the annual openings for these occupations have entry-level wages above the living wage for one adult (\$15.04 in Los Angeles County).<sup>4</sup> Typical entry-level hourly wages are in a range between \$17.46 and \$20.55. Experienced workers can expect to earn wages between \$28.05 and \$30.72, which are higher than the living wage estimate.

**Orange County**—All of the annual openings for these occupations have entry-level wages above the living wage for one adult (\$17.36 in Orange County). Typical entry-level hourly wages are in a range between \$17.55 and \$20.08. Experienced workers can expect to earn hourly wages between \$28.12 and \$29.99, which are higher than the living wage in Orange County.

**Job Postings**—Over the last 12 months, there were 8,683 job postings for occupations related to accounting in the region. The job titles with the most postings were bookkeepers, accounting clerks, accounts payable clerks, accounts payable specialists, and accounting assistants. The top skills were accounting, accounts payable/accounts receivable, bookkeeping, data entry, and QuickBooks. While QuickBooks is one of the top skills requested for payroll and accounting job postings, it is worth noting that fewer than 50 postings requested the QuickBooks Certification by name. The top employers, by the number of job postings, in the region were Anthem, Inc., Marriott International, Sprouts Farmers Markets, Orange County, and El Super.

*It is important to note that the job postings data included in this section reflects online job postings listed in the past 12 months and does not yet demonstrate the impact of COVID-19. While employers have generally posted fewer online job postings since the beginning of the pandemic, the long-term effects are currently unknown.*

**Educational Attainment**—The Bureau of Labor Statistics (BLS) lists a high school diploma as the typical entry-level education for *payroll and timekeeping clerks* and some college/no degree as the typical entry-level education for *bookkeeping, accounting, and auditing clerks*. In the LA/OC region, the majority of job openings (91%) typically require some college/no degree. Furthermore, the national-level educational attainment data indicates between 48.5% and 48.9% of workers in the field have completed some college or an associate degree. Of the 50% of payroll accounting job postings listing a minimum education requirement in Los Angeles/Orange County, 75% (3,220) requested a high school diploma and 25% (1,096) requested an associate degree.

## **Educational Supply**

**Community College Supply**—Exhibit 2 displays the annual and three-year average number of awards conferred by LA/OC regional community colleges in the related TOP code: Accounting (0502.00). The colleges with the most completions in the region are East LA, Irvine, and Mt. San Antonio. Over the past 12 months, there were six other related program recommendation requests from LA/OC regional community colleges.

---

<sup>4</sup> Living wage data was pulled from California Family Needs Calculator on 3/30/2021. For more information, visit the California Family Needs Calculator website: <https://insightcced.org/2018-family-needs-calculator/>.

**Non-Community College Supply**—For a comprehensive regional supply analysis, it is also important to consider the supply from other institutions in the region that provide training programs related to middle-skill accounting occupations. Exhibit 3 shows the annual and three-year average number of awards conferred by these institutions in the related Classification of Instructional Programs (CIP) Codes: Accounting (52.0301) and Accounting Technology/Technician and Bookkeeping (52.0302).

Due to different data collection periods, the most recent three-year period of available data is from 2014 to 2017. Between 2014 and 2017, non-community colleges in the region conferred an average of 915 awards annually in related training programs.
