Hello Gisele,

Barbara Des Rochers is trying to contact you to consult on some Biotechnology curriculum. Could you please get back to her, so that BCC can move forward with their proposals.

This would also be a good time to let her know about the Histotechnician certificate and courses on the December 3rd CIPD agenda. I should have advised you to do this earlier, so I apologize for the last minute notice.

Thanks,

Nghiem Thai

Subject: Contacting Gisele Giorgi

Dear Nghiem and LaShaune,

Our biotechnology faculty member Barbara Des Rochers is trying to contact Gisele Giorgi to consult on some course changes and new courses in our biotech program. She has not been successful in getting a response by email and the phone number she has isn't being answered and there is no way to leave a message because the voice mail is full. Can you confirm if Gisele would be the right person to contact and, if so, what is the best method to reach her? If by phone, please provide the phone number.

When you reply, please reply to all so Barbara has the information. Thanks in advance for your assistance.

Nancy
