

PROGRAM OF STUDY

Human Services (Associate in Science)

An introduction to the theories and skills needed for entry-level work in a social services setting. Sociological, psychological, and multicultural theories will be addressed to provide a foundation for student self-reflection and the application of theory for human services work. This program is designed to provide entry-level skills to work in human service positions and/or provide an applied foundation for further education in a variety of areas, including (but not limited to) counseling, psychology, social work, social justice work, health care.

Career Opportunities in Psychology-Counseling

Entry-level positions in Human Services with local community-based organizations, county, or state service centers.

Program Learning Outcomes

1. Cultural Sensitivity – Students will demonstrate cultural awareness and sensitivity needed to respectfully serve the diverse service population.:
2. Ability to Conduct Needs Assessment – Students will demonstrate the ability to assess the needs of clients and provide appropriate referrals for them.:
3. Understanding of the Human Services Field – Students will demonstrate an understanding and provide an overview of the field of human and social services in both the public and private sector.:
4. Boundaries: Students will demonstrate appropriate boundaries and the ability to make ethical decisions.:
