Job Postings vs. Hires

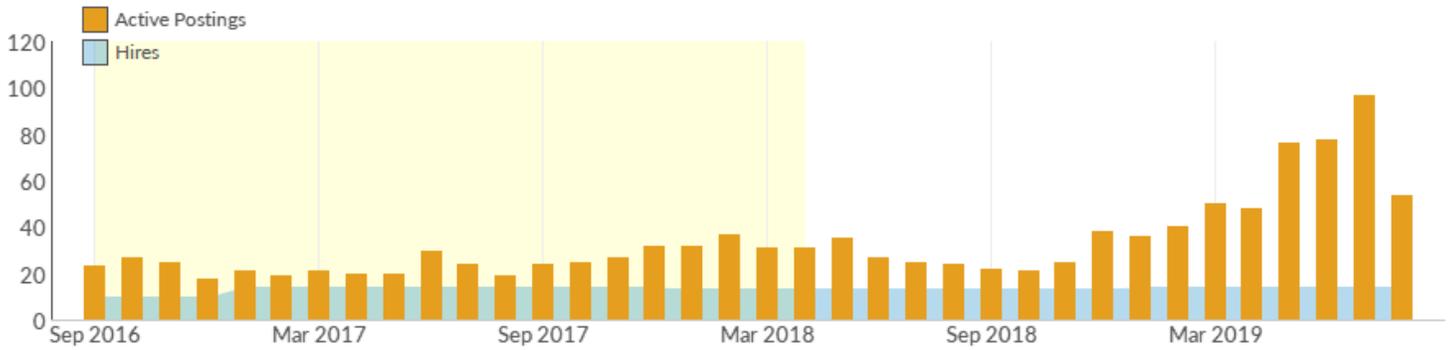

25

Avg. Monthly Postings (Sep 2016 - Apr 2018)

13

Avg. Monthly Hires (Sep 2016 - Apr 2018)

In an average month, there were 25 active job postings for 2 Occupations, and 13 actually hired. This means there was approximately 1 hire for every 2 active job postings for 2 Occupations.

Occupation	Avg Monthly Postings (Sep 2016 - Apr 2018)	Avg Monthly Hires (Sep 2016 - Apr 2018)
Physical Therapist Assistants	25	4
Physical Therapist Aides	1	9

Job Postings Summary

<p>202</p> <p>Unique Postings 725 Total Postings</p>	<p>4 : 1</p> <p>Posting Intensity</p>  <p>Regional Average: 4 : 1</p>	<p>39 days</p> <p>Median Posting Duration Regional Average: 30 days</p>
--	--	---

There were 725 total job postings for your selection from September 2016 to April 2018, of which 202 were unique. These numbers give us a Posting Intensity of 4-to-1, meaning that for every 4 postings there is 1 unique job posting.

This is close to the Posting Intensity for all other occupations and companies in the region (4-to-1), indicating that they are putting average effort toward hiring for this position.

The following provides insight into the supply and demand of relevant skills by comparing the frequency of skills present in job postings against skills present in today's workforce. Along with Emsi's job posting analytics, this comparison leverages Emsi's dataset of more than 100M online resumés and profiles. All resumés and profiles used in these comparisons have been updated within the last three years.

*The skills associated with workforce profiles represent workers of all education and experience levels.

Appendix A - Data Sources and Calculations

Institution Data

The institution data in this report is taken directly from the national IPEDS database published by the U.S. Department of Education's National Center for Education Statistics.

Emsi Job Postings

Job postings are collected from various sources and processed/enriched to provide information such as standardized company name, occupation, skills, and geography.

Occupation Data

Emsi occupation employment data are based on final Emsi industry data and final Emsi staffing patterns. Wage estimates are based on Occupational Employment Statistics (QCEW and Non-QCEW Employees classes of worker) and the American Community Survey (Self-Employed and Extended Proprietors). Occupational wage estimates also affected by county-level Emsi earnings by industry.

Location Quotient

Location quotient (LQ) is a way of quantifying how concentrated a particular industry, cluster, occupation, or demographic group is in a region as compared to the nation. It can reveal what makes a particular region unique in comparison to the national average.

State Data Sources

This report uses state data from the following agencies: California Labor Market Information Department
