

Programmable Logic Controller (PLC) Occupations

Labor Market Analysis: San Diego County

October 2019

Summary

The brief provides labor market information about *Programmable Logic Controller (PLC) Occupations* to assist the San Diego and Imperial Counties Community Colleges with program development and strategic planning. *PLC Occupations* include “Electro-Mechanical Technicians,” “Engineering Technicians, Except Drafters, All Other,” and “Electrical and Electronics Repairers, Commercial and Industrial Equipment.” According to available labor market information, there is a supply gap for these occupations. *Programmable Logic Controller Occupations* in San Diego County have a labor market demand of 287 annual job openings, while average demand for an occupation in San Diego County is 277 annual job openings. Five educational institutions in San Diego County supply 174 awards for these occupations, suggesting that there is a supply gap. This occupation’s entry-level and median wages are above the living wage, suggesting that students who successfully complete a program and obtain employment in a related field may earn a living wage. Workers in this occupation typically have an educational requirement of an associate degree. According to online job postings, the top listed educational requirement for *PLC Occupations* is a high school degree or vocational training. This brief recommends to proceed with a new program, but to keep in mind that the labor market demand for three *PLC Occupations* is similar to the average demand for a single occupation in San Diego County.

Introduction

This report provides labor market information in San Diego County for the following occupational codes in the Standard Occupational Classification (SOC)¹ system:

- **Electro-Mechanical Technicians** (SOC 17-3024): Operate, test, maintain, or calibrate unmanned, automated, servo-mechanical, or electromechanical equipment. May operate unmanned submarines, aircraft, or other equipment at worksites, such as oil rigs, deep ocean exploration, or hazardous waste removal. May assist engineers in testing and designing robotics equipment.
- **Engineering Technicians, Except Drafters, All Other** (SOC 17-3029): All engineering technicians, except drafters, not listed separately. "All Other" titles represent occupations with a wide range of characteristics which do not fit into one of the detailed SOC occupations. For this report, Engineering Technicians, Except Drafters, All Other include:
 - **Electrical Engineering Technologists** (SOC 17-3029.02): Assist electrical engineers in such activities as process control, electrical power distribution, or instrumentation design. May prepare layouts of electrical transmission or distribution systems, supervise the flow of work, estimate project costs, or participate in research studies.
 - **Manufacturing Engineering Technologists** (SOC 17-3029.06): Develop tools, implement designs, or integrate machinery, equipment, or computer technologies to ensure effective manufacturing processes.
 - **Mechanical Engineering Technologists** (SOC 17-3029.07): Assist mechanical engineers in such activities as generation, transmission, or use of mechanical or fluid energy. Prepare layouts of machinery or equipment or plan the flow of work. May conduct statistical studies or analyze production costs.
- **Electrical and Electronics Repairers, Commercial and Industrial Equipment** (SOC 49-2094): Repair, test, adjust, or install electronic equipment, such as industrial controls, transmitters, and antennas.

For the purpose of this report, these occupations are referred to as *Programmable Logic Controller Occupations*.

¹ The Standard Occupational Classification (SOC) system is used by federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating or disseminating data. [bls.gov/soc](https://www.bls.gov/soc).

Projected Occupational Demand

Between 2018 and 2023, *Programmable Logic Controller Occupations* are projected to increase by 101 net jobs or three percent (Exhibit 1). Employers in San Diego County will need to hire 287 workers annually to fill new jobs and backfill jobs due to attrition caused by turnover and retirement, for example.

Exhibit 1: Number of Jobs for Programmable Logic Controller Occupations (2008-2023)²

Exhibit 1b breaks down the projected number of jobs change by occupation more specifically. As Exhibit 1b shows, labor market demand for *Engineering Technicians, Except Drafters, All Other* is projected to increase by 71 total jobs between 2018 and 2023.

Exhibit 1b: Number of Jobs for Programmable Logic Controller Occupations in San Diego County (2018-2023)

Occupational Title	2018 Jobs	2023 Jobs	2018 - 2023 Net Jobs Change	2018-2023 % Net jobs Change	Annual Openings (Demand)
Engineering Technicians, Except Drafters, All Other	2,172	2,243	71	3%	202
Electrical and Electronics Repairers, Commercial and Industrial Equipment	750	770	20	3%	71
Electro-Mechanical Technicians	141	150	9	6%	14
Total	3,063	3,163	100	3%	287

Online Job Postings

This report analyzes not only historical and projected data (traditional labor market information), but also recent data from online job postings (real-time LMI). Online job postings may provide additional insight about recent changes in the labor market demand that are not captured by historical data. Between 2010 and 2018, there was an average of 839 online job postings per year for *Programmable Logic Controller Occupations* in San Diego County (Exhibit 2).

Exhibit 2: Number of Online Job Postings for Programmable Logic Controller Occupations in San Diego County (2010-2018)³

Earnings

The median hourly earnings of *Programmable Logic Controller Occupations* range from \$28.56 to \$34.79 (Exhibit 3a). On average, the median hourly earnings for *Programmable Logic Controller Occupations* is \$31.41; this is more than the living wage for a single adult in San Diego County, which is \$15.99 per hour (Exhibit 3b).⁴

Exhibit 3a: Hourly Earnings for Programmable Logic Controller Occupations in San Diego County

Occupational Title	Entry-Level Hourly Earnings (25 th Percentile)	Median Hourly Earnings	Experienced Hourly Earnings (75 th Percentile)
Electrical and Electronics Repairers, Commercial and Industrial Equipment	\$26.80	\$30.90	\$37.17
Engineering Technicians, Except Drafters, All Other	\$26.74	\$34.79	\$43.01
Electro-Mechanical Technicians	\$22.02	\$28.56	\$36.78

Educational Supply

Educational supply for an occupation can be estimated by analyzing the number of awards in related Taxonomy of Programs (TOP) or Classification of Instructional Programs (CIP) codes.⁷ There are **five** TOP codes and **18** CIP codes related to *PLC Occupations* (Exhibit 4).

Exhibit 4: Related TOP and CIP Codes for Programmable Logic Controller Occupations

<i>Programmable Logic Controller Occupations</i>
TOP 070100: Information Technology, General
TOP 092400: Engineering Technology, General
TOP 093400: Electronics and Electric Technology
TOP 095600: Manufacturing and Industrial Technology
TOP 099900: Other Engineering and Related Industrial Technologies
CIP 11.0101: Computer and Information Sciences, General
CIP 11.0199: Computer and Information Sciences, Other
CIP 15.0000: Engineering Technology, General
CIP 15.0201: Civil Engineering Technology/Technician

⁵ 10th and 25th percentiles could be considered entry-level wages, and 75th and 90th percentiles could be considered experienced wages for individuals who may have been in the occupation longer, received more training than others, etc.

⁶ Emsi 2019.04; QCEW, Non-QCEW, Self-Employed.

⁷ TOP data comes from the California Community Colleges Chancellor's Office MIS Data Mart (datamart.cccco.edu) and CIP data comes from the Integrated Postsecondary Education Data System (nces.ed.gov/ipeds/use-the-data).

	• National University	0	1	
			Total	174

Demand vs. Supply

Comparing labor demand (annual openings) with labor supply⁸ suggests that there is a **supply gap** for these occupations in San Diego County, with **287** annual openings and **174** awards. Comparatively, there are **1,954** annual openings in California and **2,802** awards, demonstrating that there is a potential oversupply across the state⁹ (Exhibit 6).

Exhibit 6: Labor Demand (Annual Openings) Compared with Labor Supply (Average Annual Awards)

Community Colleges and Other Postsecondary Educational Institutions	Demand (Annual Openings)	Supply (Total Annual Average Supply)	Supply Gap or Oversupply
San Diego	287	174	113
California	1,954	2,802	848

Please note: This is a basic analysis of supply and demand of labor. The data does not include workers currently in the labor force who could fill these positions or workers who are not captured by publicly available data. This data should be used to discuss the potential gaps or oversupply of workers; however, it should not be the only basis for determining whether or not a program should be developed.

⁸ Labor supply can be found from two different sources: EMSI or the California Community Colleges Chancellor's Office MIS Data Mart. EMSI uses CIP codes while MIS uses TOP codes. Different coding systems result in differences in the supply numbers.

Student Outcomes and Regional Comparisons

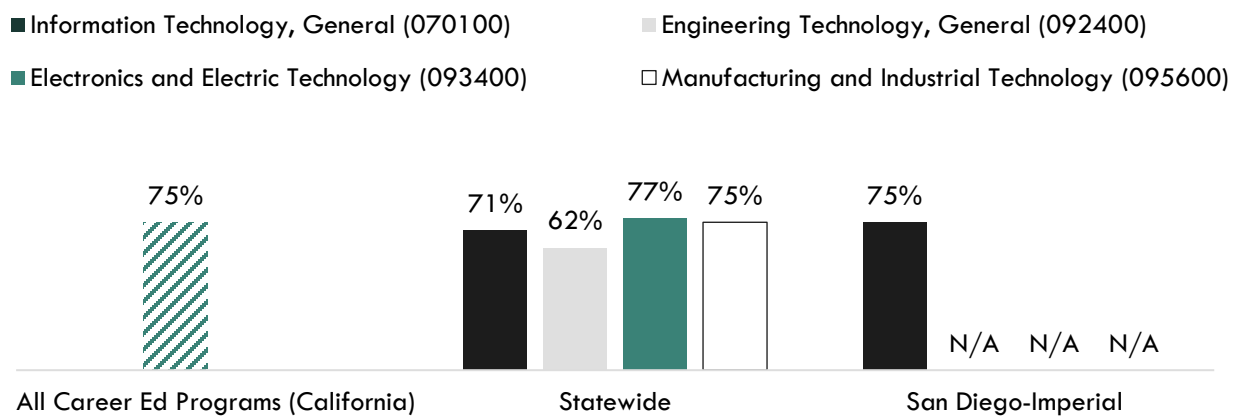

According to the California Community Colleges LaunchBoard, between 52 and 67 percent of students earned a living wage in programs related to *Programmable Logic Controller Occupations*, compared to 58 percent of students who earned a living wage in Career Education programs across the state (Exhibit 7a).

Exhibit 7a: Proportion of Students Who Earned a Living Wage, PY2015-16¹⁰

According to the California Community Colleges LaunchBoard, 75 percent of students in the San Diego-Imperial region obtained a job closely related to their field of study after completing a related program, compared to 62 to 71 percent statewide and 75 percent of students in Career Education programs in general across the state (Exhibit 7b).

Exhibit 7b: Percentage of Students in a Job Closely Related to Field of Study, PY2014-15¹¹

¹⁰ Among completers and skills builders who exited, the proportion of students who attained a living wage.

¹¹ Most recent year with available data is Program Year 2014-15. Percentage of Students in a Job Closely Related to Field of Study: Among students who responded to the CTEOS, the percentage reporting employment in the same or similar field as their program of study.

Top Employers and Work Locations

Between January 1, 2016 and December 31, 2018, the top five employers in San Diego County for these occupations were [Epsilon Systems Solutions](#), [Northrop Grumman](#), [General Atomics](#), [Danaher Corporation](#), and [ATK](#) (Exhibit 8).

Skills, Education, and Certifications

Programmable Logic Controller Occupations have a national educational requirement ranging from a [postsecondary nondegree award](#) to an [associate degree](#) (Exhibit 9a).

Exhibit 9a: National Educational Attainment for Programmable Logic Controller Occupations¹³

Occupational Title	Typical Entry-Level Education
Electro-Mechanical Technicians	Associate degree
Engineering Technicians, Except Drafters, All Other	Associate degree
Electrical and Electronics Repairers, Commercial and Industrial Equipment	Postsecondary nondegree award

Based on online job postings between January 1, 2016 and December 31, 2018, in San Diego County, the top listed educational requirement for *Programmable Logic Controller Occupations* is a [high school degree](#) or [vocational training](#) (Exhibit 9b).¹⁴
