Hi Shamika,

I hope you're doing well!

I wanted to share that Mt. SAC is in the process of developing a Library Technology program, and we're excited about the opportunities this will create for students interested in library careers.

It's even more exciting that you are collaborating with librarians from Mt. SAC and SBVC on an OER textbook project to support the acquisitions courses at our three colleges.

This collaboration is a valuable step in making library education more accessible, and I truly appreciate the effort and expertise that you and the team are bringing to this project. I'm looking forward to seeing how it develops and how it will benefit students across different programs.

Thank you for your work on this! Looking forward to staying in touch.

Best,
Kolap
