SUMMARY

This report analyzes whether local labor market demand is being met by community college programs aligned with the identified middle-skill occupation¹ or whether a shortage of workers exists. Labor market demand is measured by annual job openings while education supply is measured by the number of awards (degrees and certificates) conferred on average each year.

Based on the available data, there appears to be a supply gap for the one identified middle-skill occupation in the region. Furthermore, entry-level wages exceed the self-sufficiency standard wage in both Los Angeles and Orange counties, and the Bureau of Labor Statistics (BLS) lists an associate degree as the typical entry-level education level.

Recommendation: Due to all three program endorsement criteria being met, the Los Angeles Center of Excellence for Labor Market Research (LA COE) endorses this proposed program.

Key Findings

Supply Gap

- 31 annual job openings are projected in the region through 2029. This number is greater than the three-year average of 9 awards conferred by educational institutions in the region.

¹ Middle-skill occupations typically require some postsecondary education, but less than a bachelor's degree. The COE classifies middle-skill jobs as the following:

- All occupations that require an educational requirement of some college, associate degree or apprenticeship;
- All occupations that require a bachelor's degree, but also have more than one-third of their existing labor force with an educational attainment of some college or associate degree; or
- All occupations that require a high school diploma or equivalent or no formal education, but also require short- to long-term on-the-job training where multiple community colleges have existing programs.

Living Wage

- \$29.50 is the typical entry-level hourly wage for *electro-mechanical and mechatronics technologists and technicians*, which is higher than Los Angeles County's self-sufficiency standard hourly (\$24.03/hour).²

Educational Attainment

- An associate degree is the typical entry-level education for *electro-mechanical and mechatronics technologists and technicians*, according to the Bureau of Labor Statistics (BLS).
- 50% of workers in the field have completed some college or an associate degree, according to national educational attainment data.

Community college supply

- Two community colleges issued awards related to electro-mechanical technology in the greater LA/OC region.
- Nine awards (degrees and certificates) were conferred on average each year between 2022 and 2024.

Other postsecondary supply

- There are no other educational institutions in the LA/OC region have conferred awards in programs related to electro-mechanical technology over the past three years.

TARGET OCCUPATION

LA COE prepared this report to provide regional labor market and postsecondary supply data related to one middle-skill occupation:

- ***Electro-Mechanical and Mechatronics Technologists and Technicians (17-3024)*** Operate, test, maintain, or adjust unmanned, automated, servomechanical, or electromechanical equipment. May operate unmanned submarines, aircraft, or other equipment to observe or record visual information at sites such as oil rigs, crop fields, buildings, or for similar infrastructure, deep ocean exploration, or hazardous waste removal. May assist engineers in testing and designing robotics equipment.³

OCCUPATIONAL DEMAND

Exhibit 1 shows the five-year occupational demand projections for this target occupation. In the greater Los Angeles/Orange County region, the number of jobs related to this occupation is projected to remain steady (0% growth) through 2029. There will be approximately 31 job openings per year through 2029 due to job growth and replacements. The majority of jobs in 2024 for this target occupation (69%) were located in Los Angeles County.

Exhibit 1: Current employment and occupational demand, Los Angeles and Orange counties⁴

| Geography | 2024 Jobs | 2029 Jobs | 2024-2029 Change | 2024-2029 % Change | Annual Openings |
|--------------|------------|------------|------------------|--------------------|-----------------|
| Los Angeles | 242 | 240 | (2) | (1%) | 21 |
| Orange | 109 | 111 | 2 | 1% | 10 |
| Total | 351 | 351 | 0 | 0% | 31 |

Detailed Occupation Data

Exhibit 2 displays the current employment and projected occupational demand for the target occupation in Los Angeles County. The average percentage of workers aged 55+ across all occupations in the Los Angeles/Orange County region is 26%; occupations with a larger share of workers aged 55 and older typically have greater replacement needs to offset the amount of impending retirements.

Exhibit 2: Detailed employment and occupational demand, Los Angeles County⁵

| Occupation | 2024 Jobs | 2029 Jobs | 5-Yr % Change | Annual Openings | % Aged 55 and older | % Full Time Workers |
|---|-----------|-----------|---------------|-----------------|---------------------|---------------------|
| Electro-Mechanical and Mechatronics Technologists and Technicians | 242 | 240 | (1%) | 21 | 30% | Data unavail. |

WAGES

The labor market endorsement in this report considers the entry-level hourly wages for this target occupation in Los Angeles County as they relate to the county's self-sufficiency standard wage. Orange County wages are included below in order to provide a complete analysis of the greater Los Angeles/Orange County region.

Los Angeles County

The typical entry-level hourly wages for *electro-mechanical and mechatronics technologists and technicians* are \$29.50, which is above the self-sufficiency standard wage for one adult (\$24.03 in Los Angeles County). Experienced workers can expect to earn wages of \$49.45 (Exhibit 3).

Exhibit 3: Earnings for occupation in Los Angeles County

| Occupation | Entry-Level Hourly Earnings (25 th Percentile) | Median Hourly Earnings | Experienced Hourly Earnings (75 th Percentile) | Median Annual Earnings* |
|---|---|------------------------|---|-------------------------|
| Electro-Mechanical and Mechatronics Technologists and Technicians | \$29.50 | \$37.25 | \$49.45 | \$77,500 |

*Rounded to the nearest \$100

⁴ Five-year change represents new job additions to the workforce. Annual openings include new jobs and replacement jobs that result from retirements and separations.

⁵ Ibid.

Orange County

The typical entry-level hourly wages for *electro-mechanical and mechatronics technologists and technicians* are \$31.40, which is above the self-sufficiency standard wage for one adult (\$27.13 in Orange County). Experienced workers can expect to earn wages of \$51.35 (Exhibit 4).

Exhibit 4: Earnings for occupation in Orange County

| Occupation | Entry-Level Hourly Earnings (25 th Percentile) | Median Hourly Earnings | Experienced Hourly Earnings (75 th Percentile) | Median Annual Earnings* |
|---|---|------------------------|---|-------------------------|
| Electro-Mechanical and Mechatronics Technologists and Technicians | \$31.40 | \$39.10 | \$51.35 | \$81,300 |

*Rounded to the nearest \$100

Across the greater Los Angeles and Orange County region, the average entry-level hourly earnings for the occupation in this report are \$30.08; this is above the living wage for one single adult in Los Angeles County (\$24.03). Exhibit 5 shows the average hourly wage for the occupation in this report, for entry-level to experienced workers.

Exhibit 5: Average hourly earnings for target occupation, Los Angeles and Orange counties

JOB POSTINGS

There were 103 online job postings for *electro-mechanical and mechatronics technologists and technicians* listed in the past 12 months in Los Angeles and Orange counties. Job postings were analyzed for the most common job titles, skills, and employers associated with the target occupation in this report (Exhibit 6).

Exhibit 6: Most commonly requested job titles, skills and employers in job postings, Los Angeles and Orange counties

| Top Job Titles | Top Skills | Top Employers |
|--|--|---|
| <ul style="list-style-type: none"> • Mechatronics technicians • Robotics technicians • Robotics techs • Robotics instructors • Electromechanical technicians • CNC technicians | <ul style="list-style-type: none"> • Robotics • Computerized maintenance • Mechatronics • Optometry • Electronics | <ul style="list-style-type: none"> • Cushman & Wakefield • Amazon • CBRE • Genesis10* • Jobot* • Relativity Space |

*Staffing company

In the greater Los Angeles/Orange County region, 69% of the *electro-mechanical and mechatronics technologist and technician* job postings listed a minimum educational requirement. Exhibit 7 details the number and percentage of job postings by educational level.

Exhibit 7: Education levels requested in job postings for the target occupation, Los Angeles and Orange counties

| Education Level | Job Postings | % of Job Postings |
|--|--------------|-------------------|
| Bachelor's degree | 67 | 94% |
| Associate degree | 2 | 3% |
| High school diploma or vocational training | 2 | 3% |

EDUCATIONAL ATTAINMENT

The Bureau of Labor Statistics (BLS) lists an associate degree as the typical entry-level education for *electro-mechanical and mechatronics technologists and technicians* (Exhibit 8). Furthermore, the national-level data indicates 50% of workers in the field have completed some college or an associate degree as their highest level of educational attainment. The Bureau of Labor Statistics (BLS) lists the following typical entry-level education levels for the occupation in this report:

Exhibit 8: Entry-level education preferred by employers nationally, Bureau of Labor Statistics

| Occupation | Education Level |
|---|------------------|
| Electro-mechanical and mechatronics technologists and technicians | Associate degree |

EDUCATIONAL SUPPLY

Community College Supply

Exhibit 9 shows the annual and three-year average number of awards conferred by community colleges in the related TOP code: Electro-Mechanical Technology (0935.00). The only two colleges with completions in the region are Santa Ana and Orange Coast. Currently, there are no

other postsecondary institutions in the greater LA/OC region that have conferred awards in these related CIP codes in the past three years:

- Electromechanical/Electromechanical Engineering Technology/Technician (15.0403)
- Mechatronics, Robotics, and Automation Engineering Technology/Technician (15.0407)
- Industrial Electronics Technology/Technician (47.0105)

Exhibit 9: Regional community college awards (certificates and degrees), 2022-2024

| TOP Code | Program | College | 2021-22 Awards | 2022-23 Awards | 2023-24 Awards | 3-Year Average |
|-----------------------------|-------------------------------|--------------------|----------------|----------------|----------------|----------------|
| 0935.00 | Electro-Mechanical Technology | Orange Coast | - | - | 3 | 1 |
| | | Santa Ana | 4 | 8 | 11 | 8 |
| | | OC Subtotal | 4 | 8 | 14 | 9 |
| Supply Total/Average | | | 4 | 8 | 14 | 9 |

Exhibit 10 displays the community college awards broken down by award type. In this case, the majority of awards issued by community colleges are certificates (67%).

Exhibit 10: Community college awards by award type, 2022-2024

| Award Type | # of Awards | % of Awards |
|-------------------|-------------|-------------|
| A.A./A.S. degrees | 3 | 33% |
| Certificates | 6 | 67% |
| Total | 9 | 100% |
