Advisory Committee Members

- After review of the new course and new certificate presented to Advisory Committee a vote was called for by Nicole Lambrou
- Vote was taken by the full committee and the new certificate was approved. All members voted YES and one member noted they were *“excited about the potential it holds for addressing regional educational gaps and advancing environmental and climate justice. I vote yes for the implementation of this program. It's a timely and essential addition that promises to prepare our students for significant roles in urban planning and public administration.”*
- Community members shared updates.
