Hello LARC Workforce Council colleagues,

Cerritos Community College is planning on submitting Aerospace Welding, Combination Welder, Structural Steel Fabricator, Process Pipe Welding, Certificates of Achievement / Associate of Science Degree for program recommendation, at the February business meeting. As you probably know, our welding department is well established in the community and we are taking this time to reorganize our certificates to better meet labor market demands. We requested the LMI several months ago and that has been published already. If there are any questions or you would like additional information, please reach out to our Department Chair, Albert Allen (copied). The application is on the cteregional website.

Thank you for your assistance.

Albert Allen

Cerritos College

Welding Instructor / Department Chair
