

Geographic Information Systems Certificate

ADVISORY

MEETING NOTES

Date: 3/1/2024

Time: 5:00pm

Facilitator: Scott Phillips

Attendance

Gavin Oleary, Mattole Whitaker, Stuart McFeeters, Keith Woodcock

Plus all of the Environmental Science participants (see sign-in sheet)

Emily Artz, Michelle Harns, Mattole Whitaker, Katherine Phillips, Amber Butland, Grace Freymiller

Approval of Minutes

- No previous minutes

Program Update (course/program modifications or new program proposal)

- Gave handout about new program and went over it. I'm primarily asking for advice on electives to program.

Recommendation

- Continue with GIS Certificate program as described with 3-unit core and electives from Environmental science and/or other CTE programs.

Feedback

- Work with Environmental Science to enhance field data collection (Survey 123) skills
- Look at Land Surveying (like a class offered at Reedley College)
- The core looks good.
- Offering electives from other CTE Certs such as Environmental Science, Soils, Field Biology, Plant Science looks good.
