Dear Colleagues,

We are working on updating our certificates in the automotive program to better reflect both the student's progress as well as minor changes to our curriculum. In order to complete the process I am reaching out for collegial consultation. Please note that the programs as a whole are not changing, just how each certificate is named and the courses that are required. For ease of reference, I have included a spreadsheet. One sheet has the new proposed certificate structure and the other has the existing certificate structure. The course map is also included as an additional sheet.

If you have any questions or concerns, please let me know.
