Additional Considerations			
Emerging Occupation(s):	Yes <input type="checkbox"/>	Some <input type="checkbox"/>	No <input type="checkbox"/>
	<i>Comments:</i> N/A		

The South Central Coast Center of Excellence for Labor Market Research (SCC COE) prepared this report to determine whether there is a supply gap in the SCC regional labor market related to two above middle-skill occupations:

- Camera Operators, Television, Video, and Film (27-4031)
- Film and Video Editors (27-4032)

The SCC COE predicates endorsement only for middle-skill occupations. Since this program included above middle-skill occupations only, labor market endorsement criteria is not included in this report.

Exhibit 1 lists the occupational demand, supply, typical entry-level education, and educational attainment for the occupations included in this report.

¹ The living wage endorsement criteria in this report uses the University of Washington's Center for Women's Welfare Self-Sufficiency Standard, which the COE refers to as a living wage; Orange County's living wage of \$27.13, was last updated in March 2024.

Exhibit 1: Labor Market Endorsement Summary

Occupation (SOC)	Demand (Annual Openings)	Supply (CC and Non-CC)	Entry-Level Hourly Earnings (25 th Percentile)	Typical Entry-Level Education	Community College Educational Attainment
Camera Operators, Television, Video, and Film (27-4031)	23	<i>Accounted for below</i>	\$18.08	Bachelor's Degree	26%
Film and Video Editors (27-4032)	34	200	\$22.12	Bachelor's Degree	26%
Total	57	200	N/A	N/A	N/A

Demand:

- The number of jobs related to these film occupations is projected to increase 8% through 2029 in the SCC region. There is projected to be 57 annual job openings due to new job creation and replacements.
- Hourly entry-level wages for these film occupations in Santa Barbara County range from \$18.08 to \$22.12; all (100%) annual job openings have entry-level wages below the Self-Sufficiency Standard living wage (\$29.80 for Santa Barbara County).
- There were 93 online job postings for these film occupations over the past 12 months. The highest number of postings were for videographers, videographers/editors, and video editors.
- The typical entry-level education for these film occupations is a bachelor's degree.
- Approximately 26% of workers in the field have completed some college or an associate degree as their highest level of education.

Supply:

- There was an average of 187 awards conferred by eight community colleges in the SCC Region from 2020 to 2023.
- Non-community college institutions conferred 13 related awards from 2019 to 2022.
- SCC community college students that exited Film Production programs in the 2022-23 academic year had a median annual wage of \$29,440 (\$14.15 per hour) after exiting the program and 9% attained the regional living wage (Self-Sufficiency Standard).
- Throughout the SCC Region, 71% of Film Production students that exited their program in 2021-22 reported that they are working in a job closely related to their field of study.

Demand

Occupational Projections:

Exhibit 2 compares historical and projected changes in employment for these occupations compared to the number of jobs in 2019. Notably, employment for these film occupations in San Luis Obispo grew 32% from 2019 to 2024, which is significantly higher when compared to employment for these occupations in California, the SCC Region, and all other counties in the SCC Region. From 2024 to 2029, employment for these film occupations is projected to steadily grow in all areas.

Exhibit 2: Historical and Projected Employment for Film Occupations in the SCC Region, 2019-2029

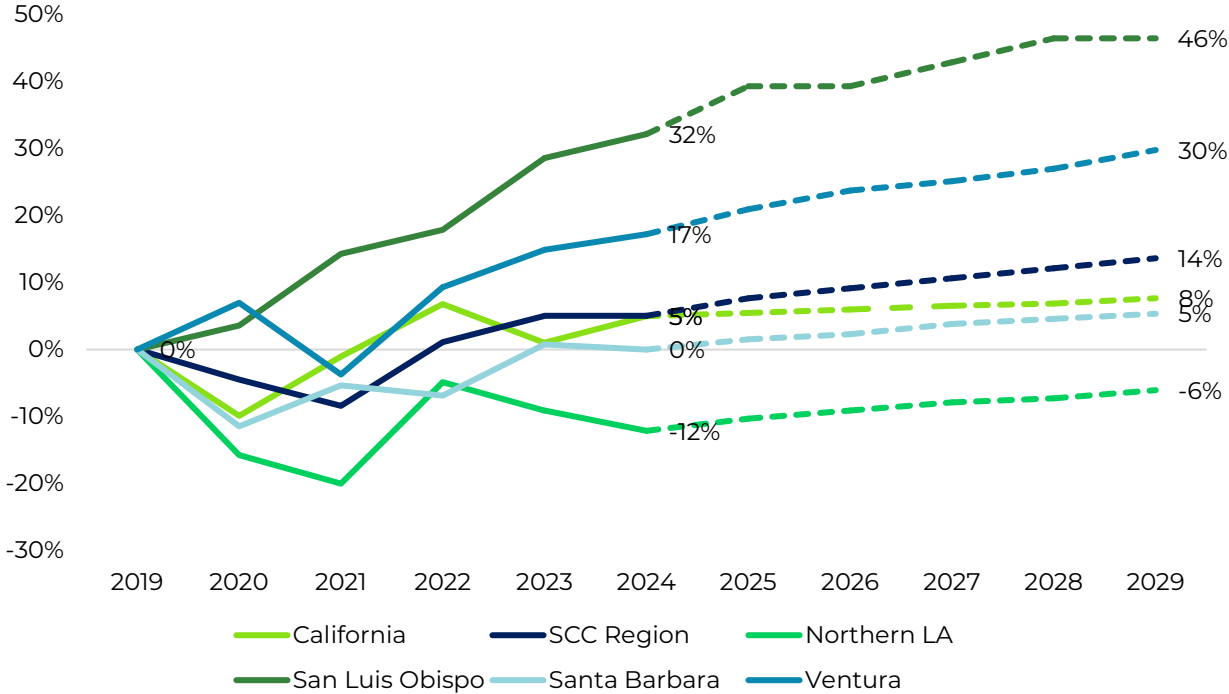

Exhibit 3 shows the five-year occupational demand projections for these film occupations. In the SCC Region, the number of jobs related to these occupations is projected to increase 8% through 2029. There is projected to be 57 jobs available annually. Ventura County has the highest number of jobs and annual openings.

Exhibit 3: Occupational Demand in the SCC Region²

Geography	2024 Jobs	2029 Jobs	2024-2029 Change	2024-2029 % Change	Annual Openings
Northern LA	146	155	9	6%	14
San Luis Obispo	38	42	4	11%	4
Santa Barbara	131	138	7	5%	12
Ventura	253	278	26	10%	26
SCC Region	564	609	45	8%	57

² Five-year change represents new job additions to the workforce. Annual openings include new jobs and replacement jobs that result from retirements and separations.

Wages:

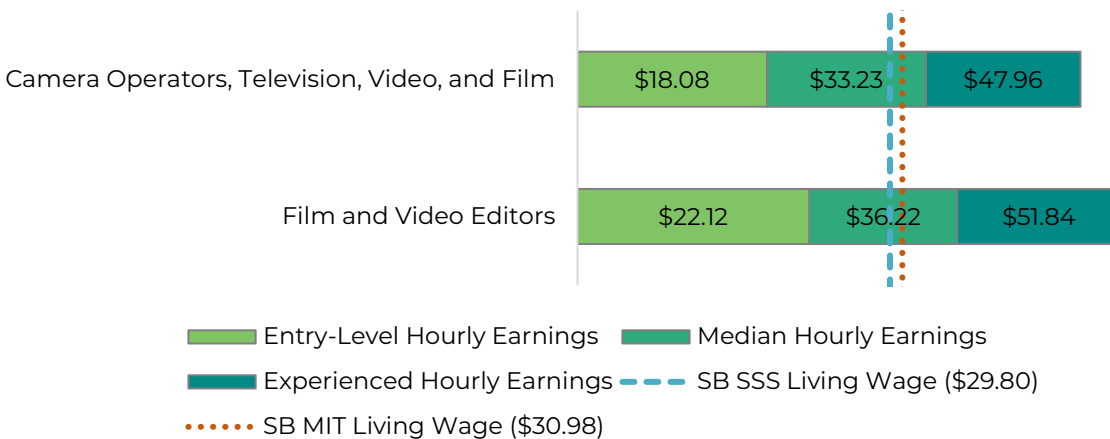

The labor market endorsement in this report considers the entry-level hourly wages for these film occupations in relation to the living wage of the county where the requesting community college is located. This report was requested by Allan Hancock College, which is in Santa Barbara County. Wages for other counties are included below to provide a complete analysis of the SCC Region.

In addition to the Self Sufficiency Standard living wage, data for the MIT Living Wage, updated on February 10, 2025, is provided as a reference. Currently, the MIT Living Wage in Santa Barbara County is \$30.98. Both figures account for geographic-specific costs of necessities such as housing, food, health care, and transportation to assess the cost of living, and are notated in the exhibits below.

Santa Barbara

All (100%) annual openings for these film occupations have entry-level wages below the Self-Sufficiency Standard living wage for one adult (\$29.80 in Santa Barbara County). Typical entry-level hourly wages range between \$18.08 and \$22.12. Median hourly earnings for these film occupations in Santa Barbara County are above the living wage. Exhibit 4 shows the wage range for each of these film occupations in Santa Barbara County and how they compare to the regional living wage, sorted from lowest to highest entry-level wage.

Exhibit 4: Wages by Occupation in Santa Barbara County

Northern Los Angeles

All (100%) annual openings for these film occupations have entry-level wages below the Self-Sufficiency Standard living wage for one adult (\$24.03 in Los Angeles County). Typical entry-level hourly wages range between \$19.86 and \$22.69. Median hourly earnings for these film occupations in Northern Los Angeles County are above the living wage. Exhibit 5 shows the wage range for each of these film occupations in Northern Los Angeles and how they compare to the regional living wage, sorted from lowest to highest entry-level wage.

Exhibit 5: Wages by Occupation in Northern Los Angeles County

San Luis Obispo

All (100%) of annual openings for these film occupations have entry-level wages below the Self-Sufficiency Standard living wage for one adult (\$22.15 in San Luis Obispo County). Typical entry-level hourly wages range between \$14.86 and \$16.06. Median hourly earnings for these film occupations in San Luis Obispo County are above the living wage. Exhibit 6 shows the wage range for each of these film occupations in San Luis Obispo County and how they compare to the regional living wage, sorted from lowest to highest entry-level wage.

Exhibit 6: Wages by Occupation in San Luis Obispo County

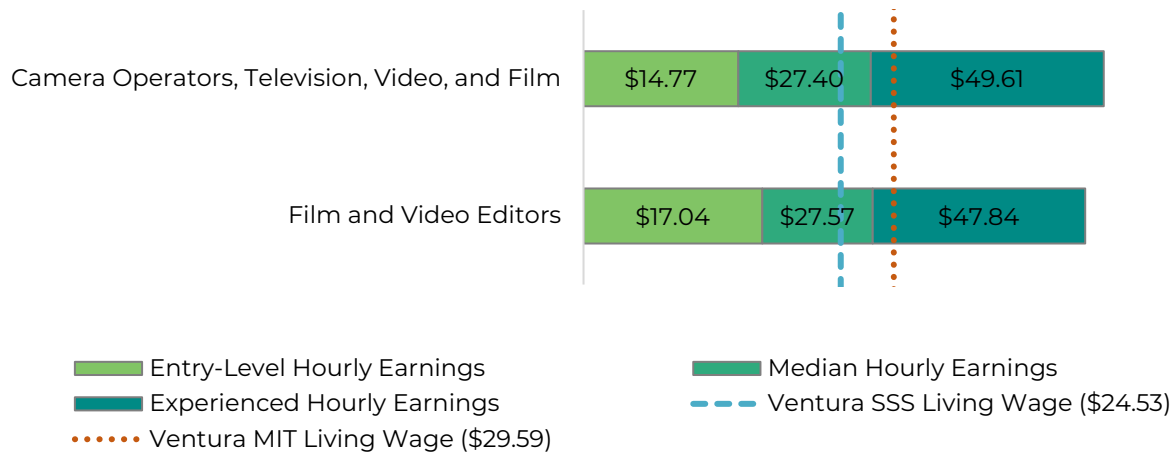

Ventura

All (100%) annual openings for these film occupations have entry-level wages below the Self-Sufficiency Standard living wage for one adult (\$24.53 in Ventura County). Typical entry-level hourly wages range between \$14.77 and \$17.04. Median hourly earnings for these film occupations in Ventura County are above the living wage. Exhibit 7 shows the wage range

for each of these film occupations in Ventura County and how they compare to the regional living wage, sorted from lowest to highest entry-level wage.

Exhibit 7: Wages by Occupation in Ventura County

Job Postings:

There were 93 online job postings related to these film occupations listed in the past 12 months in the SCC Region. Exhibit 8 shows the number of job postings by occupation. Approximately 43% of job postings were in Ventura County.

Exhibit 8: Number of Job Postings by County (n=93)

County	Job Postings	Percentage of Job Postings
Ventura	40	43%
Santa Barbara	25	27%
Northern Los Angeles	16	17%
San Luis Obispo	12	13%
Total Postings	93	100%

Of the 93 postings, the majority (76%) were for Camera Operators, Television, Video and Film (27-4031), followed by Film and Video Editors (27-4032), as shown in Exhibit 9.

Exhibit 9: Number of Job Postings by Occupation (n=93)

Occupation	Job Postings	Percentage of Job Postings
Camera Operators, Television, Video, and Film	71	76%
Film and Video Editors	22	24%
Total Postings	93	100%

The top employers in the region, by number of job postings, are shown in Exhibit 10.

Exhibit 10: Top Employers by Number of Job Postings (n=93)

Employer	Job Postings	Percentage of Job Postings
College of the Canyons	3	3%
Fabworks	2	2%

Employer	Job Postings	Percentage of Job Postings
Haas Automation	2	2%
Indev	2	2%
Pennymac	2	2%
PricewaterhouseCoopers	2	2%
Rp3 Productions	2	2%
360 Studios	1	1%
Ad Leverage	1	1%
Aerovironment	1	1%

The top specialized, soft, and computer skills listed by those most frequently mentioned in job postings (denoted in parentheses) are shown in Exhibit 11.

Exhibit 11: Top Skills by Number of Job Postings (n=93)

Top Specialized Skills	Top Soft Skills	Top Computer Skills
Adobe Premiere Pro (30)	Editing (42)	Adobe Premiere Pro (30)
Video Editing (22)	Communication (20)	Adobe After Effects (14)
Videography (20)	Detail Oriented (18)	Adobe Photoshop (13)
Post-Production (19)	Time Management (9)	TikTok (9)
Photography (17)	Planning (8)	Video Editing Software (8)
Video Production (17)	Ability To Meet Deadlines (7)	Final Cut Pro (7)
Adobe After Effects (14)	Research (7)	Adobe Creative Suite (6)
Marketing (14)	Innovation (6)	Adobe Illustrator (6)
Adobe Photoshop (13)	Management (6)	DaVinci Resolve (Video Editing Software) (6)
Content Creation (13)	Operations (6)	Adobe Photoshop Lightroom (5)

Educational Attainment:

The Bureau of Labor Statistics (BLS) lists the following as the typical entry-level education for these film occupations:

- Bachelor's Degree
 - *Camera Operators, Television, Video, and Film (27-4031)*
 - *Film and Video Editors (27-4032)*

The national-level educational attainment data indicates 26% of workers in the field have completed some college or an associate degree as their highest level of education. Exhibit 12 shows the educational attainment for each occupation, sorted by highest community college educational attainment to lowest.

Exhibit 12: National-level Educational Attainment for Occupations

Of the 16% of the cumulative job postings for these film occupations that listed a minimum education requirement in the SCC Region, 53% (8) requested a high school diploma or an associate degree and 47% (7) requested a bachelor's degree.

Educational Supply

Community College Supply:

Exhibit 13 shows the three-year average number of awards conferred by community colleges in the related TOP codes:

- Radio and Television (0604.00)
- Television (including combined TV/film/video) (0604.20)
- Film Production (0612.20)

No awards were conferred for the following TOP code: Radio (0604.10). The college with the most completions in the region is Moorpark College (79), followed by Oxnard College (25), and Cuesta (22).

Exhibit 13: Regional Community College Awards (Certificates and Degrees), 2021-2024

TOP Code	Program	College	2021-2022 Awards	2022-2023 Awards	2023-2024 Awards	3-Year Award Average
0604.00	Radio and Television	Cuesta	15	4	6	8
		Moorpark	18	40	63	40
Supply Subtotal/Average			33	44	69	49
0604.20	Television (including combined TV/film/video)	Antelope Valley	16	16	10	14
		Cuesta	13	17	12	14
		Moorpark	37	44	36	39
		Oxnard	29	27	18	25
		Santa Barbara	9	10	13	11
		Ventura	0	0	3	1
Supply Subtotal/Average			104	114	92	103
0612.20	Film Production	Allan Hancock	5	1	4	3
		Canyons	22	23	19	21
		Santa Barbara	8	7	17	11
Supply Subtotal/Average			35	31	40	35
Supply Total/Average			172	189	201	187

Exhibit 14 shows the annual average community college awards by type from 2021-22 to 2023-24. Nearly half of the awards are for associate for transfer degrees.

Exhibit 14: Annual Average Community College Awards by Type, 2021-2024

Community College Student Outcomes:

Exhibit 15 shows the Strong Workforce Program (SWP) metrics for Film Production programs at Allan Hancock College (AHC), the SCC Region, and California. Of the 832 Film Production students throughout the region in the 2023-24 academic year, 63% (525) attended AHC.

AHC students that exited Film Production programs in the 2022-23 academic year had higher median annual earnings (\$32,764 or \$15.75 per hour) compared to all Film Production students in the SCC Region (\$29,440 or \$14.15 per hour) and statewide (\$30,992 or \$14.90 per hour). A lower percentage of SCC Film Production students (9%) attained the living wage when compared to all Film Production in the state (20%); data for this metric is not available at the district level.

Exhibit 15: Film Production (0612.20) Strong Workforce Program Metrics, 2023-24³⁴

SWP Metric	AHC	SCC Region	California
SWP Students	525	832	9,446
SWP Students Who Earned 9 or More Career Education Units in the District in a Single Year	26%	33%	31%
SWP Students Who Completed a Noncredit CTE or Workforce Preparation Course	Data Unavailable	Data Unavailable	78%
SWP Students Who Earned a Degree or Certificate or Attained Apprenticeship Journey Status	Data Unavailable	4%	4%
SWP Students Who Transferred to a Four-Year Postsecondary Institution (2022-23)	4%	5%	7%
SWP Students with a Job Closely Related to Their Field of Study (2021-22)	Data Unavailable	71%	61%
Median Annual Earnings for SWP Exiting Students (2022-23)	\$32,764 (\$15.75)	\$29,440 (\$14.15)	\$30,992 (\$14.90)
Median Change in Earnings for SWP Exiting Students (2022-23)	41%	37%	37%
SWP Exiting Students Who Attained the Living Wage (2022-23)	Data Unavailable	9%	20%

³ All SWP metrics are for 2023-24 unless otherwise noted. Metrics data is sourced from DataVista.

⁴ Data that is not available in DataVista is denoted in Exhibit 15 as "data unavailable." Data may not be available for various reasons, including cases where data is masked to protect personally identifiable information.

Non-Community College Supply:

To comprehensively analyze the regional supply, it is crucial to include data from other institutions offering Film Production training programs. Over the past three years (2020-2023), there were 13 awards conferred by non-community college institutions under the related Classification of Instructional Programs (CIP) codes:

- Radio and Television (09.0701)
- Cinematography and Film/Video Production (50.0602)

Exhibit 16: Regional Non-Community College Awards, 2020-2023

CIP Code	Program	College	2020-2021 Awards	2021-2022 Awards	2022-2023 Awards	3-Year Award Average
09.0701	Radio and Television	Ventura Adult and Continuing Education	1	5	4	3
Supply Subtotal/Average			1	5	4	3
50.0602	Cinematography and Film/Video Production	California Lutheran University	8	12	9	10
Supply Subtotal/Average			8	12	9	10
Supply Total/Average			9	17	13	13

Regional Demographics

This section examines demographic data for SCC community college students in Film Production programs compared to the SCC labor force, along with occupational data, to identify potential diversity and equity issues addressable by community college programs.

Ethnicity:

Exhibit 17 compares the ethnicity of SCC community college students enrolled in Film Production programs, the overall SCC labor force, and occupation-specific data for the two film occupations included in this report.

Notably, 62% of workers employed in film occupations are white, which is higher than the labor force (43%) and community college Film Production students (26%). Conversely, 62% of community college Film Production students are Hispanic or Latino, which is much higher than the labor force (42%), and workers employed in film occupations (24%).

Exhibit 17: Program and County Demographics by Ethnicity

Age:

Exhibit 18 compares the age of SCC community college students enrolled in Film Production programs, the overall SCC labor force, and occupation-specific data for the two film occupations included in this report.

The majority (63%) of workers in these film occupations are in their Mid-Career (35-49) age group, which is similar to the labor force (64%), but higher than community college Film Production students (8%). Additionally, over 83% of Film Production students are in the Pre-Career/College Age (24 or younger) group.

Exhibit 18: Program and County Demographics by Age

Sex:

Exhibit 19 compares the sex of SCC community college students enrolled in Film Production programs, the overall SCC labor force, and occupation-specific data for these film occupations.

There is a significant majority of male students (60%) and male workers (77%) in these film occupations, which is higher when compared to the labor force (54% male).

Exhibit 19: Program and County Demographics by Sex

Appendix A: Methodology

Traditional Labor Market Data

The SCC COE prepared this report by analyzing data from occupations and education programs. Occupational data is derived from Lightcast, a labor market analytics firm that consolidates data from the California Employment Development Department (EDD), U.S. Bureau of Labor Statistics (BLS) and other government agencies.

Data included in this analysis represents the labor market demand for relevant positions most closely related to the proposed program as expressed by the requesting college in consultation with the SCC COE. Traditional labor market information was used to show current and projected employment based on data trends, as well as annual average awards granted by regional community colleges.

Program supply data is drawn from two systems: Taxonomy of Programs (TOP) and Classification of Instructional Programs (CIP).

Using a TOP-SOC crosswalk, the SCC COE identified middle-skill jobs for which programs within these TOP codes train. Middle-skill jobs include:

- All occupations that require an educational requirement of some college, associate degree or apprenticeship;
- All occupations that require a bachelor's degree, but also have more than one-third of their existing labor force with an educational attainment of some college or associate degree; or
- All occupations that require a high school diploma or equivalent or no formal education, but also require short- to long-term on-the-job training where multiple community colleges have existing programs.

The SCC COE determined labor market supply for an occupation or SOC code by analyzing the number of program completers or awards in a related TOP or CIP code. The COE developed a "supply table" with this information, which is the source of the program supply data for this report. TOP code data comes from the California Community Colleges Chancellor's Office MIS Data Mart (datamart.cccco.edu) and CIP code data comes from the Integrated Postsecondary Education Data System (nces.ed.gov/ipeds/use-the-data), also known as IPEDS.

TOP is a system of numerical codes used at the state level to collect and report information on California community college programs and courses throughout the state that have similar outcomes. CIP codes are a taxonomy of academic disciplines at institutions of higher education in the United States and Canada. Institutions outside of the California Community College system do not use TOP codes in their reporting systems.

Online Job Postings Data

Online job postings data, also known as real-time labor market information, captures job post advertisements for occupations relevant to the field of study which can signal demand and show what employers are looking for in potential employees but is not a perfect measure of the quantity of open positions. Online job postings data is sourced from Lightcast, a labor market analytics firm that scrapes, collects, and organizes data from online job boards such as LinkedIn, Indeed, Glassdoor, Monster, GovernmentJobs.com, and thousands more.

There are several limitations when analyzing job postings. A single job posting may not represent a single job opening, as employers may be creating a pool of candidates for future openings or hiring for multiple positions with a single posting. Additionally, not all jobs are posted online, and jobs may be filled through other methods such as internal promotion, word-of-mouth advertising, physical job boards, or a variety of other channels.

Additionally, Lightcast uses natural language processing (NLP) to determine the related company, industry, occupation, and other information for each job posting. However, NLP has limitations that include understanding contextual words of phrases; determining differences in words that can be used as nouns, verbs, and/or adjectives; and misspellings or grammatical errors.⁵ For these reasons, job postings could be assigned to the wrong employer, industry, or occupation within Lightcast’s database.

Geography

The South Central Coast region encompasses San Luis Obispo, Santa Barbara, and Ventura counties, as well as parts of Northern Los Angeles County. Exhibit 19 shows the 34 ZIP codes used to define Northern Los Angeles County.

Exhibit 20: Northern Los Angeles ZIP Codes

ZIP Code	Primary City	ZIP Code	Primary City
91310	Castaic	93532	Lake Hughes
91321	Newhall	93534	Lancaster
91322	Newhall	93535	Lancaster
91350	Santa Clarita	93536	Lancaster
91351	Canyon Country	93539	Lancaster
91354	Valencia	93543	Littlerock
91355	Valencia	93544	Llano
91380	Santa Clarita	93550	Palmdale
91381	Stevenson Ranch	93551	Palmdale
91382	Santa Clarita	93552	Palmdale
91383	Santa Clarita	93553	Pearblossom
91384	Castaic	93563	Valyermo
91385	Valencia	93584	Lancaster
91386	Canyon Country	93586	Lancaster
91387	Canyon Country	93590	Palmdale
91390	Santa Clarita	93591	Palmdale
93510	Acton	93599	Palmdale

Though traditional labor market information is available at the ZIP code level, it does not always add up to data reported at the county level for multiple reasons:

- ZIP codes are not official geographically bounded areas, unlike states and counties.
- ZIP codes may cross county lines, such as ZIP code 93461, which is primarily in San Luis Obispo County, but also crosses into Kern County.

For these reasons, the number of jobs and average annual openings for each county may not add up to the total for the SCC Region. However, considering jobseekers may cross county lines for opportunities, the traditional labor market data is reflective of opportunities available to jobseekers in the SCC Region.

Additionally, job postings data is available only at the city or county level. To analyze job postings for the entire SCC region, the SCC COE developed a list of cities available in Lightcast for analysis. Additionally, demographic data is not available at the ZIP code level but is available at the Census Bureau’s Public Use Microdata Area (PUMA) level. Demographic data was sourced via IPUMS and analyzed by the SCC COE.

⁵ K. R. Chowdhary, Fundamentals of Artificial Intelligence (Basingstoke: Springer Nature, 2020), <https://link.springer.com/book/10.1007/978-81-322-3972-7>.

Appendix B: Data Sources

Data Type	Source
Occupational Projections, Wages, and Job Postings	Traditional and real-time labor market information are captured using data from Lightcast , a labor market analytics firm.
Living Wage	Per the CCCCCO, this report's endorsement criteria uses the University of Washington's Center for Women's Welfare Self-Sufficiency Standard last updated in March 2024. The MIT Living Wage , updated on February 10, 2025, is a nationally recognized living wage metric and is provided for reference.
Typical Education and Training Requirements, and Educational Attainment	The Bureau of Labor Statistics (BLS) uses a system to assign categories for entry-level education, work experience in a related occupation, and typical on-the-job training to each occupation for which BLS publishes projections data.
Emerging Occupation Descriptions, Additional Education Requirements, and Employer Preferences	The O*NET database includes information on skills, abilities, knowledges, work activities, and interests associated with occupations.
Educational Supply	The CCCCCO Data Mart provides information about students, courses, student services, outcomes and faculty and staff. The National Center for Education Statistics (NCES) Integrated Postsecondary Integrated Data System (IPEDS) collects data on the number of postsecondary awards earned (completions).
Student Metrics and Demographics	Data Vista , a statewide data system supported by the California Community Colleges Chancellor's Office provides data on progress, success, employment, and earnings outcomes for California community college students.
Population and Occupation Demographics	The Census Bureau's American Community Survey (ACS) is the premier source for detailed population and housing information. Data is sourced from IPUMS USA , a database providing access to ACS and other Census Bureau data products.

All representations have been produced from primary research and/or secondary review of publicly and/or privately available data and/or research reports. The most recent data available at the time of the analysis was examined; however, data sets are updated regularly and may not be consistent with previous reports. Efforts have been made to qualify and validate the accuracy of the data and findings; however, neither the Centers of Excellence for Labor Market Research (COE), COE host district, nor California Community Colleges Chancellor's Office are responsible for the applications or decisions made by individuals and/or organizations based on this study or its recommendations.
