Dear LA Workforce Council voting Members,

Long Beach City College has the unique opportunity to apply to offer a Bachelor's Degree in Library & Information Science. In order to complete our application, we are reaching out to you in consultation.

A few things we are leaning on with our proposal include: capitalizing on the gap in bachelor's level education in library science, the opportunity to offer low-cost baccalaureate-level education to traditionally underserved student populations, and the hope to increase access to, and diversity within, the library science field with direct pipelines to masters-level programs in the state.

Please reach out if you have any questions!

Thank you!

Colin
