Advisory Committee members,

to our advisory committee meeting held on June 10th. I've attached the meeting minutes for your review in case you were unable to attend.

where we left off, I've created three new collision courses based on the committee's recommendation. In addition to those, I've included the AUB-50 *Introduction to Collision Repair* course and several electives to form a new curriculum. We discussed this at the end of our last meeting, but now that everything is in place, I'm seeking the committee's vote.

materials and submit your vote at your earliest convenience. I'm hoping to move this through in the current curriculum cycle—otherwise, we'll need to wait two years to launch.

Please **"Reply All"** to the last email sent to cast your vote.
