SUMMARY

The North Far North Center of Excellence for Labor Market Research (NFN COE) prepared this report to provide an analysis of occupational demand and educational supply for occupations employed across the 22-county North Far North region.

This report aims to determine if demand in the local labor market is unmet by the supply from existing community college programs and other postsecondary training providers, with a primary focus on training that leads to living wage jobs in middle-skilled occupations. Pursuant to California Education Code §78015, labor market information (LMI) is required for all new career education certificate and degree program proposals, and the North Far North Regional Consortium (NFNRC) requires LMI to come from the NFN COE. This report should serve to satisfy those requirements.

Key findings include:

- The Far North subregion held 160 commercial music jobs in 2023. These jobs are projected to increase by 9% over the next five years, adding 15 new jobs to the subregion by 2028.
- Over the next five years, commercial music jobs are projected to have 19 annual openings in the Far North subregion.
- Analysis of wage data shows that commercial music occupations earn a median hourly wage that's \$6 to \$9 above Butte community college district's living wage of \$21.95 per hour. (See Appendix B for additional information about FY 2024 changes to the living wage).
- Analysis of awards data shows that postsecondary training providers conferred an average of nine awards in commercial music programs over the last three academic years. All of these awards came from community colleges.

Recommendations include:

- The North Far North Center of Excellence recommends moving forward with the proposed program.

INTRODUCTION

The North Far North Center of Excellence (COE) was asked to provide labor market information for a newly proposed career education program at a regional community college.

This report focuses on the following Standard Occupational Classification (SOC) occupations and codes:

These middle-skill occupations require more education and training beyond a high school diploma but usually less than a four-year degree:

- Audio and Visual Technician (27-4011)
- Sound Engineering Technicians (27-4014)

A review of related programs revealed the following Taxonomy of Programs (TOP) title(s) and code(s) are appropriate for inclusion in this report:

- Commercial Music (1005.00)

The corresponding Classification of Instructional Program (CIP) title(s) and code(s) are:

- Audio Engineering Technology/Technician (15.0307)

OCCUPATIONAL DEMAND

Exhibit 1 summarizes the five-year projected job growth for the studied occupations in the Far North subregion and across the 22-county North Far North region and California.¹

Exhibit 1. Employment and projected demand, 2023-2028

Occupation	2023 Jobs	2028 Jobs	2023-2028 Change	2023-2028 % Change	2023-2028 Annual Openings
Audio and Video Technicians	116	128	12	10%	14
Sound Engineering Technicians	44	47	3	7%	5
Far North Subregion	160	175	15	9%	19
Audio and Video Technicians	528	571	43	8%	58
Sound Engineering Technicians	177	200	23	13%	22
North Far North	705	771	66	9%	80
Audio and Video Technicians	12,093	12,669	577	5%	1,226
Sound Engineering Technicians	7,912	8,213	301	4%	788
California	20,004	20,882	878	4%	2,014

¹ The 22-county North Far North is a dual region. It is represented by the North (Greater Sacramento) subregion that covers seven counties, including El Dorado, Nevada, Placer, Sacramento, Sutter, Yolo, and Yuba, and the 15-county Far North subregion which includes Butte, Colusa, Del Norte, Glenn, Humboldt, Lake, Lassen, Mendocino, Modoc, Plumas, Shasta, Sierra, Siskiyou, Tehama, and Trinity.

Exhibit 2 compares ten years' worth of historical and projected annual changes in employment to the base number of jobs in 2018 for the selected subregion and across the 22-county North Far North region and California.

Exhibit 2. Changes in employment, 2018-2028

OCCUPATIONAL EARNINGS

Exhibits 3 and 4 compare the percentile hourly earnings for the selected occupations to the living wage for a single working adult and a working family residing in the county of the community college district that requested this report.^{2,3} For additional information about changes to NFN COE's living wage comparisons, see Appendix B.

Butte College requested this report. The living wage for a single working adult residing in the same county as the community college's district office is \$21.95 per hour.

Please note that the 25th and 75th percentile hourly earnings are used to estimate entry-level and experienced worker wages.

² Living wage is defined as the level of income one working adult with no children must earn to meet basic needs, including food, housing, transportation, healthcare, taxes, and other miscellaneous basic needs. Please note that the 25th-percentile and 75th-percentile hourly wages are used as proxy for entry-level and experienced-level wages.

³ A small family is defined as one working adult and one school aged child (between the ages of 5 and 12 years).

Exhibit 3. Hourly earnings by occupation, 2023

Exhibit 4. Median occupational earnings vs. Community College District's County living wage

Occupation	Median Hourly Earnings	Difference from Working Adult Living Wage (Negative is below LW)
Audio and Video Technicians	\$30.87	\$8.92
Sound Engineering Technicians	\$28.09	\$6.14

JOB POSTINGS

About Job Postings Analysis

This section of the report analyzes recent data from online job postings. Online job postings may provide additional insight into recent changes in the labor market that are not captured by historical trends. However, job postings are not the same as labor market demand; demand is based on projected annual openings.

There are several limitations to analyzing and interpreting online job postings. Employers may post a position multiple times to increase the number of job applicants. Job postings may remain online after a business chooses not to fill a position. Employers may advertise one posting to fill multiple vacancies. And not all jobs are posted online.

Job posting analyses should be used to inform community college curriculum development and to identify potential employers for targeted experiential learning opportunities.

The North Far North COE identified 13 online job postings for the selected occupations across the Far North subregion. Job posting data comes from and represents unique advertisements newly posted online during the last 12 months, from September 1, 2023 to August 31, 2024.

Top Employers and Job Titles

Exhibit 4 details the number of online job postings for the selected occupations across the studied subregion.

Exhibit 4. Job postings by occupation

Occupation	Unique Job Postings	Share of Job Postings
Audio and Video Technicians	12	92%
Sound Engineering Technicians	1	8%
Total Job Postings	13	100%

Exhibit 5 shows the job titles with the most job postings for the selected occupations across the studied subregion.

Exhibit 5. Jobs titles with the most job postings

Job Title	Number of Job Postings
Front End Associate Team Leaders	3
Remodel Associates	2
Sound Mixers	1
Front End Supervisors	1
Audio/Video Technicians	1
Site Support Specialists	1
Grips	1
Media Technicians	1

Exhibit 6 shows the employers with the most job postings for the selected occupations across the studied subregion.

Exhibit 6. Employers with the most job postings

Employer	Number of Job Postings
Walmart	7
Olympus	1
LabCorp	1
Mendocino College	1
Associated Students	1

Most Requested Qualifications and Skills

There were no certifications listed in online job postings.

Exhibit 7 shows the most requested specialized, common, and software skills for the studied occupations across the studied subregion.⁴

Exhibit 7. Most in-demand skills

Specialized Skills	Common Skills	Software Skills
Merchandise Returns	English Language	Zoom (Video Conferencing Tool)
Audiovisual Equipment	Customer Service	Google Slides
Electronics	Lifting Ability	Microsoft Office
Warehousing	Management	Microsoft PowerPoint
Renovation	Communication	
Inventory Staging	Presentations	
Electrical Control Systems	Writing	
Pneumatic Tools	Coordinating	
Electrical/Electronic Troubleshooting	Professionalism	
Shipping And Receiving	Organizational Skills	

⁴ Specialized skills are those primarily required to perform specific tasks in an occupation. Common skills are typically related to employability; these are skills that are prevalent across many occupations and usually include a mix of interpersonal attributes and soft skills. Software skills are specific to any software tool or programming component used to accomplish tasks in a job.

Exhibit 8 shows the employer-preferred minimum level of education for job postings related to the studied occupations across the subregion.

Exhibit 8. Employer-preferred education levels for the studied occupations

Note: Employers may include more than one level of education as a hiring requirement in a job posting. As a result, the values in the chart may sum to greater than 100%.

Exhibit 9 shows the employer-preferred minimum level of experience for job postings related to the studied occupations across the subregion.

Exhibit 9. Employer-preferred job experience for the studied occupations

Note: Employers may include more than one level of education as a hiring requirement in a job posting. As a result, the values in the chart may sum to greater than 100%.

EDUCATION AND TRAINING REQUIREMENTS

The U.S. Census Bureau collects data on the highest education level achieved by workers across all occupations. Exhibit 10 shows the educational attainment of the current workforce employed in the studied occupations across the United States.

Exhibit 10. U.S. educational attainment for workers 25 years and older by occupation, 2019 and 2021

The U.S. Bureau of Labor Statistics (BLS) uses a categorical system to assign typical entry-level education and job requirements to each occupation for which the BLS publishes projection data. These categories include entry-level education, work experience in a related occupation, and on-the-job training. Exhibit 11 shows the typical entry-level job requirement by occupation.

Exhibit 11. Typical entry-level job requirements for the studied occupations

Occupation	Entry-level Education Requirements	Work Experience Requirements	On-The-Job Training Requirements
Audio and Video Technicians	Postsecondary nondegree award	None	Short-term on-the-job training
Sound Engineering Technicians	Postsecondary nondegree award	None	Short-term on-the-job training

EDUCATIONAL SUPPLY

Educational supply for an occupation can be estimated by analyzing the number of awards issued in related Taxonomy of Programs (TOP) or Classification of Instructional Programs (CIP) codes. Exhibit 12 shows the TOP and CIP codes for educational programs related to the selected occupations.

Exhibit 12. TOP and CIP codes for training programs related to the selected occupations

TOP Programs and Codes	Aligned CIP Programs and Codes
Commercial Music (1005.00)	Audio Engineering Technology/Technician (15.0307)

Community College Supply

Exhibits 13 and 14 summarize the three-year average of certificates and degrees conferred by the selected subregion's community college programs relevant to the studied occupations.

Exhibit 13. Average annual community college awards by TOP program

TOP Program and Code	College	Annual Awards 2020-21	Annual Awards 2021-22	Annual Awards 2022-23	3-Yr Annual Awards Average
Commercial Music (1005.00)	Butte	9	3	4	5
	Mendocino	3	6	2	4
	Grand Total	12	9	6	9

Note: Values in the table are rounded to the nearest whole number; however, subtotals and totals are calculated using unrounded values.

Exhibit 14. Average annual community college awards by award type

Other Postsecondary Supply

There were no degrees conferred by non-community college training providers in the Far North over the last three academic years. Please note that non-community college data often lags by one year.

FINDINGS

This report focuses on two occupations in the commercial music career pathway: audio and video technicians and sound engineering technicians.

Occupational Demand

- The Far North subregion held 160 commercial music jobs in 2023. These jobs are projected to increase by 9% over the next five years, adding 15 new jobs to the subregion by 2028.
- Commercial music jobs are projected to grow faster rate in the Far North than in California.
- Over the next five years, commercial music jobs are projected to have 19 annual openings in the Far North subregion.

Wages

- Analysis of wage data shows that commercial music occupations earn a median hourly wage that's \$6 to \$9 above the single working adult living wage of \$21.95 per hour in Butte community college district.
- Commercial music occupations earn median wages that are \$7 to \$10 below the living wage for a small family (\$38.58 per hour).

Job Postings

- In the last 12 months, there were 13 online job postings for commercial music occupations.
- The top occupation was audio and video technicians, which was in 92% of online job postings.

Education and Training Requirements

- 39% of incumbent workers in each of the studied occupations have educational attainment levels consistent with community college offerings (some college or associate degrees).
- Another 38% hold a bachelor's degree.

- In terms of educational requirements, 54% requested a bachelor's degree in online jobs postings (38% did not list an educational requirement).

Postsecondary Supply

- Two Far North community colleges offer degrees and certificates in programs related to commercial music. These programs conferred an average of nine awards (certificates and associate degrees) in commercial music programs over the last three academic years (2020-21 through 2022-23).
- No local non-community college postsecondary training provider offered training related to the studied occupations between the 2020-21 and 2022-23 academic years. Please note that non-community college awards data often lags by one year.

RECOMMENDATIONS

Supply Gap

- A comparison of occupational demand to educational supply suggests undersupply in the commercial music career pathway. There are 19 projected annual job openings across the Far North subregion and nine annual average awards conferred by community colleges and other postsecondary training institutions across the Far North subregion.

Living Wage

- 100% of annual job openings for occupations in the commercial music career pathway have median hourly wages that meet or exceed the living wage of \$21.95 for a single working adult residing in the same county as Butte College.

Education

- All occupations have educational training requirements that align with community college offerings. 39% of workers in these occupations have completed some college or an associate degree as their highest level of education.

New Program Recommendation		
Move forward with the new program.	Proceed with caution	A new program is not recommended.

APPENDIX B. WAGES AND THE LIVING WAGE

About Occupational Earnings

Occupational earnings data comes from the Bureau of Labor Statistics' Occupational Employment Statistics dataset. It is collected from the employer's perspective, meaning that earning data is pre-tax and based on the place of the employee's work (rather than where they live). Occupational earnings are reported based on hourly income and include base rate pay, commissions, cost of living allowances, guaranteed pay, hazard pay, incentive pay, longevity pay, production bonuses, and tips. Occupational earnings do not include bonuses, reimbursements, overtime pay, relocation allowances, severance pay, etc.

The NFN COE reports on occupational earnings using percentile earnings. Percentile earnings are typically broken into 10th, 25th, 50th (median), 75th, and 90th percentiles and are used to show the distribution of wages for workers employed within an occupation. For example, the 25th percentile hourly earnings for childcare workers employed across the North Far North (NFN) region is \$15.50. This means that in 2023, 25% of the North Far North's childcare workers earned up to but no more than \$15.50 per hour. Childcare workers in the North Far North have a 90th percentile wage of \$23.72, meaning that 90% of childcare workers employed across the region earn up to \$23.72 per hour. The NFN COE uses the 25th and 75th percentile hourly wages as a proxy to estimate wages for entry-level and experienced workers.

Living Wage

A living wage is the level of income one adult working full-time must earn to meet their minimum basic needs where they live, all while being self-sufficient. The basic needs that factor into a living wage calculation include food, housing, childcare (for those with children), healthcare, transportation, broadband and mobile access, taxes, and other necessities (like clothing, personal care products, and household furnishings and supplies).

The NFN COE currently uses the most recent version of the [MIT Living Wage Calculator](#) to estimate the living wage for each community college district and uses the living wage for a single, working adult without dependents. A working adult is assumed to work 2,080 full-time hours, which is equivalent to 40 hours a week for 52 weeks per year. The NFN COE will revise this practice as needed to ensure continued alignment with the Chancellor's Office.

Comparing occupational earnings to the living wage

Prior to the 2024-25 fiscal year, the NFN COE compared the 25th percentile hourly earnings of an occupation employed in the subregion to a subregional average living wage for one single, working adult (no dependents) residing in a county located in the North or Far North subregions.

Beginning in the fall of the 2024-25 fiscal year, the NFN COE will compare the median hourly earnings of an occupation employed in the subregion to the living wage for one single, working adult (no dependents) residing in the same county as the community college district that initially requested this report. This change aligns with the definition used by the Chancellor's Office to determine the proportion of students who attained a living wage after exiting the California Community College system in the Student Success Metrics (SM 802Sx) and Community College Pipeline (CP 802). The NFN COE will revise this practice as needed to ensure continued alignment with the Chancellor's Office.

Living Wage by County of Community College District Office Location

Community College District (CCD)	Location of District Office (County)	2024 Living Wage – One Working Adult
Butte-Glenn	Butte	\$21.95
Feather River	Plumas	\$21.39
Lake Tahoe	El Dorado	\$27.15
Lassen	Lassen	\$21.13
Los Rios	Sacramento	\$25.19
Mendocino-Lake	Mendocino	\$23.08
Redwoods	Humboldt	\$21.48
Shasta-Tehama-Trinity Joint	Shasta	\$21.93
Sierra Joint	Placer	\$28.33
Siskiyou Joint	Siskiyou	\$20.89
Yuba	Sutter	\$23.22
<i>California minimum wage - all industries except fast food and healthcare</i>		<i>\$16.00</i>
<i>California minimum wage - fast food (eff. April 1, 2024)</i>		<i>\$20.00</i>
<i>California minimum wage – Healthcare (effective date is unknown)</i>		<i>\$18-23, depending on type of facility</i>

Funding Acknowledgement: This report was made available with Strong Workforce Program funding from the North Far North Regional Consortium.

COVID-19 Statement: This report includes employment projection data produced by Lightcast (formerly EMSI). Employment projections are developed using models based on historical data, which in this set of projections covers the period through 2021. Most input data, therefore, precedes the pandemic. Employment projections are long-term projections intended to capture structural changes in the economy, not cyclical fluctuations. As such, projections data are not intended to capture the impacts of the recession that began in February 2020. Cyclical fluctuations, like recessions, impact projections when they become part of the historical data set.

Important Disclaimer: All representations included in this report have been produced from primary research and/or secondary review of publicly and/or privately available data and/or research reports. Efforts have been made to qualify and validate the accuracy of the data and the reported findings; however, neither the Centers of Excellence, COE host District, nor California Community Colleges Chancellor's Office are responsible for applications or decisions made by recipient community colleges, or their representatives based upon components or recommendations contained in this study.
